Max R.
Senior .NET/OutSystems Engineer

SUMMARY

- 10+ years experience in IT - Upper-Intermediate English

TECHNICAL SKILLS

Main Technical Skills	.NET, OutSystems
Programming Languages	C, C#, C++, JavaScript, Python
JavaScript Frameworks	Angular, AngularJS, Node.js, React
.NET Platform	.NET
Databases & Management Systems / ORM	Microsoft SQL Server, MongoDB, MySQL, SQL
UI Frameworks, Libraries, and Browsers	Angular Material UI, Bootstrap, Kendo UI, Material UI
Cloud Platforms, Services & Computing	Azure
Industry Domain Experience	SAAS
SDK / API and Integrations	API, Web API
Deployment, CI/CD & Administration	DevOps
Virtualization, Containers and Orchestration	Docker
Version Control	Git
Methodologies, Paradigms and Patterns	MVC, Scrum, SOLID
Platforms	OutSystems
Operating Systems	Windows

EXPERIENCE

Sr .NET FullStack/Tech Lead at Baja Technologies

August 2023 - Current
Responsibilities:

- Business Requirement Analysis.
- Software Architecture & Database design.
- Create, Implement & Maintain Modules using ASP MVC, Web API, bootstrap, Angular and SQL.
- Implement patterns like factory Method, Adapter, Singleton, Dependency Injection and SOLID Principles.
- Lead tech and team build for different projects.
- Lead the frontend team and create strategies and career paths to help the team learn angular quickly.
- Lead of Scrum process.

Sr .NET FullStack at VIQ Solutions

November 2020 - August 2023
Responsibilities:

- Business Requirement Analysis.
- Software Architecture & Database design.
- Create, Implement & Maintain Modules using ASP MVC, Web API, bootstrap, devexpress, angular material, angularJS, Angular and SQL.
- Implement patterns like factory Method, Adapter, Singleton, Dependency Injection and SOLID Principles.
- Lead daily scrum meetings and support the current tech lead

Sr. Software Developer at UST

June 2021 - Agusto 2021
Responsibilities:

- Business Requirement Analysis.
- Software Architecture & Database design.
- Create, Implement & Maintain Modules using ASP MVC, Web API, bootstrap, Angular and SQL.
- Implement patterns like factory Method, Adapter, Singleton, Dependency Injection and SOLID Principles.

.NET FullStack/OutSystems Lead at Unosquare

April 2017 – November 2020
Responsibilities:

- Development of new projects with MVC pattern design.
- Create, Implement & Maintain Outsystems Projects.
- POC based on OutSystems solution.
- Architecture design proposes base on OutSystems.
- DevOps/SysAdmin role on OutSystems.
- Production Support to the legacy projects in SharePoint.
- Work day to day with the client and share status in Daily meetings using SCRUM as framework and methodology.
- Business Requirement Analysis.

- Software Architecture & Database design.
- Create, Implement & Maintain .NET projects, Using ASP MVC, Kendo UI, Angular and SQL.
- Implement patterns like factory Method, Adapter, Singleton, Dependency Injection and SOLID Principles.
- in charge of 5 people doing mentoring and monitoring of their activities.

.NET FullStack/ Azure Developer at Caleo

September 2018 – December 2018
Responsibilities:

- Development of new projects with MVC pattern design
- Work day to day with the client and share status in Daily meetings using SCRUM as framework and methodology.
- Business Requirement Analysis .
- Software Architecture design proposal .
- Database design.
- Implement patterns like Singleton, Dependency Injection and SOLID Principles.

.NET FullStack Developer at Tiempo Development

February 2016 – April 2017
Responsibilities:

- Development of new features into legacy architecture and migration of software legacy.
- Business Requirement Analysis.
- Software Architecture design proposal.
- Implement patterns like Singleton, Dependency Injection and SOLID Principles.

.NET FullStack Developer SR at OPEN Group

December 2013 – February 2016
Responsibilities:

- Support and development of new features in web and desktop applications of Human Resource, Inventory and Billing Electronic.
- Business Requirement Analysis.
- Software Architecture design.
- Database design.
- Implement patterns like Dependency Injection and SOLID Principles.
- in charge of a team with 5 people to build a web application using ASP MVC, C#, Web API and SQL Server.

.Net Developer Freelance at TotalTech

July 2014 – January 2015
Responsibilities:

- Solution of issues of software implementation
- Implement patterns SOLID Principles.
- Web Development using Web Forms, C#, Javascript & SQL.

.Net Developer Freelance at SAAS del Golfo

August 2013 – December 2013
Responsibilities:

- Development of new features in web application
- Business Requirement Analysis
- Software Architecture design
- Implement patterns and SOLID Principles.
- Web Development using Web Forms, C#, Telerik, MySQL & Javascript

EDUCATION

Software Engineer. Technological, Institute of Sonora (ITSON).
