Andrii V.
Senior Ruby on Rails Engineer / Team Lead

SUMMARY

- Ruby on Rails Developer with over 10 years of progressive experience, specializing in architecting and developing scalable web applications across diverse industries including healthcare, legal services, finance, and e-commerce.
- Demonstrated expertise in leading development teams of up to 10 members while maintaining optimal workflow and fostering knowledge sharing.
- Proven track record in designing and implementing complex technical solutions for multi-platform applications serving US, Canadian, and European markets.
- Proficient in full-stack development with strong capabilities in Ruby on Rails, React JS, GraphQL, REST APIs, and various database technologies including MySQL and MongoDB.
- Experienced in agile methodologies with a focus on test-driven development, code quality, and documentation maintenance.
- Adept at requirements analysis, task estimation, and project planning to ensure timely delivery of high-quality software products.

TECHNICAL SKILLS

Main Technical Skills	Ruby on Rails, JavaScript, React, AngularJS, CSS
Programming Languages	JavaScript, TypeScript
JavaScript Frameworks	AngularJS, React
.NET Platform	ASP.NET Core Framework
UI Frameworks, Libraries, and Browsers	Bootstrap 4, CSS
Java Frameworks	Play Framework
Scala Frameworks	Play Framework
Ruby Frameworks	Ruby on Rails
Data Analysis and Visualization Technologies	Data visualization
Databases & Management Systems / ORM	AWS ElasticSearch, MongoDB, MySQL, NoSQL, PostgreSQL, RDBMS

Cloud Platforms, Services & Computing	DigitalOcean
Amazon Web Services	AWS ElasticSearch, AWS SAM
Virtualization, Containers and Orchestration	Docker, Vagrant
Platforms	LCDP
Third Party Tools / IDEs / SDK / Services	Microsoft Visual Studio Code
Web/App Servers, Middleware	Nginx+Apache
Methodologies, Paradigms and Patterns	OOP, Scrum, UML, Waterfall
iOS Libraries and Tools	Packet Tunnel Provider
QA, Test Automation, Security	Postman
UI/UX/Wireframing	Prototyping
Operating Systems	Unix, Windows
Other Technical Skills	Hardware, XP + Scrum, YAML

EXPERIENCE

Senior Ruby on Rails Developer / Team Lead, Telemedicine Platform

Dec 2020 – Jan 2024

Description: One of the biggest telemedicine providers. Healthcare project that allows You to get doctor appointment, get consultation, medicine receipt. It was build as multiplatform, to cover all requirements of US, Canada and Europe clients. It was built using toggles to have easily customize functional for different customers
