Version Control	Git
Platforms	headless, sendgrid
Other Technical Skills	activemerchant, Airbrake, better_errors, carrierwave, chargify_api_ares, delayed_job, Doctrina, dynamic_form, exception_notification, fastercsv, figaro, fog, friendly_id, geocoder, google-spreadsheet-ruby, httparty, letter_opener, mail_safe, mechanize, mina, mini_magick, nested_form, nokogiri, omniauth, paperclip, paper_trail, pdfkit, phonedlib, pry, pundit, pushwoosh, rest-client, rmagick, spree, watir-webdriver, weekdays, whenever

EXPERIENCE

RoR development

09.2019 – present time

- Development and maintenance of a multi-featured CMS. Working with high-load project issues. Integration of the best engineering practices into projects.
- Building a -featured multitier all-in-one CRM solution for a wedding agency according to the best principles of the software design. Solved scalability, reliability and performance issues around loading time, data binding, GraphQL tier and API integration. The project included a -based frontend and a multifunctional backend built with Ruby on Rails, Postgres, GraphQL, Apollo etc.

MassMedia Group - RoR development

2016 – 2019

- Software Engineer/ Project lead. Development of software, code review, designing the architecture of web applications.
- Plenty of custom CMS, CRM solutions like blockchain documents sign and verification system
- Development of big Asian fastfood/restaurant delivery portal

Boboyan - PHP development

2016 – 2016

- Web applications development
- I've worked with Symfony, Doctrine, Docker and gained great experience

Freelance - PHP development

2012 – 2016

- Web Developer
- Development, bugfixes, JS and HTML coding
