Viktoriya R.
Senior Node/React Engineer

SUMMARY

- Good experience in web development. - Strong attitude to follow engineering best practices. Open to new approaches, can argue about technical decisions. - Upper-Intermediate English - Available: ASAP

TECHNICAL SKILLS

Main Technical Skills	Node.js, React
Programming Languages	Dart, JavaScript, PHP, Python, TypeScript
JavaScript Frameworks	Angular, Fastify, GatsbyJS, Node.js, React, Svelte
JavaScript Libraries and Tools	ES6, NPM, Preact, Vite
Mobile Frameworks and Libraries	Flutter
Databases & Management Systems / ORM	Firebase, PostgreSQL
UI Frameworks, Libraries, and Browsers	CSS, SCSS
Cloud Platforms, Services & Computing	Firebase
Methodologies, Paradigms and Patterns	Agile, Scrum
Collaboration, Task & Issue Tracking	Atlassian Trello, Jira
Virtualization, Containers and Orchestration	Docker, Docker Swarm, Kubernetes
UI/UX/Wireframing	Figma
Version Control	Git
SDK / API and Integrations	GraphQL, JWT, RESTful API, Swagger
Mail / Network Protocols / Data transfer	JWT
Operating Systems	Linux, Windows

EXPERIENCE

Front-end Developer

6 months
Description: custom CRM system
Responsibilities: implement i18n, add custom integrations with 3rd party services, implementing new features, creating reusable abstraction for search\filter\pagination
Technologies: Angular, CSS, REST API (HATEOAS)

Full stack developer, Serendip

6 months

Description: e-commerce marketplace
Responsibilities: build frontend, build backend for frontend to provide REST with firebase, build graphql using PIMCore
Technologies: SvelteKit, Firebase Functions, PIMCore (PHP), GraphQL, JWT, MJML, NodeJS, Docker, Swarm

Full stack developer, NewStyle

6 months
Description: online store based on data from customer ERP system
Responsibilities: build frontend, create entities and API for them on backend
Technologies: GatsbyJS, PReact, Firebase Functions, PIMCore (PHP), GraphQL, NodeJS, Docker, Swarm

Full stack developer

4 months
Description: forms for internal company processes
Responsibilities: implement complicated online forms.
Technologies: Angular, TypeScript, RxJS, Angular Material, NodeJS

Mobile developer

6 months
Description: mobile app
Responsibilities: build mobile app from scratch
Technologies: Flutter

Full stack developer, Mailcheck

10 months
Description: email verification service
Responsibilities: implement new features on frontend, create subscriptions on data modification on FireStore.
Technologies: Angular, TypeScript, RxJS, Firebase Functions, FireStore, Angular Material, NodeJS

EDUCATION

Kiev National University of Civil Engineering and Architecture, Civil Engineering
