## TECHNICAL SKILLS

| | |
|---|---|
| **Main Technical Skills** | JavaScript, TypeScript |
| **Programming Languages** | C#, JavaScript, TypeScript |
| **JavaScript Frameworks** | Angular, D3.js, Express, jQuery, Lodash, Moment.js, Node.js, React |
| **.NET Platform** | ASP.NET |
| **JavaScript Libraries and Tools** | Hammer.JS, Leaflet, Mobx, Mongoose, NPM, React Native, React-Saga, React Thunk, Redux, RxJs, Yarn |
| **Databases & Management Systems / ORM** | Microsoft Azure SQL Server, MongoDB, MySQL, PostgreSQL |
| **UI Frameworks, Libraries, and Browsers** | Bootstrap, Chart.js, CSS, D3.js, Highcharts, HTML, HTML5, jQuery, Material UI, SASS, Socket.io, Storybook |
| **Azure Cloud Services** | Microsoft Azure SQL Server |
| **Deployment, CI/CD & Administration** | Axios |
| **Version Control** | BitBucket, GitHub |
| **SDK / API and Integrations** | Cloud based API, Eslint LinkedIn API, Facebook API, Google API, Google Maps API, LinkedIn API, PayPal API, RESTful API, Twitter API, YouTube API |
| **Collaboration, Task & Issue Tracking** | Jira |
| **Operating Systems** | Linux, macOS, Ubuntu, Windows |
| **Web/App Servers, Middleware** | SPA |
| **Third Party Tools / IDEs / SDK / Services** | Yarn |

| | |
|---|---|
| **Other Technical Skills** | Flex |

## EXPERIENCE

### Front-end developer, 123loadboard

5 months

**Description:**

Allow to find the loads by custom filters, search on map these loads, connect with the owner truck and control delivery process. Also provide their own truck for delivery.

**Responsibilities:**

- Layout according to maquette
- Writing the epics witch connect to server
- Create store ecosystem
- Control and display received data

**Technologies/Environment:**

- ReactJS
- Redux (RxJS)
- Material UI
- TypeScript
- Lodash
- Leaflet
- Storybook

### Full stack developer, Squadhelp

2 months

**Description:**

Allow to create contests, holding contests and determination of the winner. Manage own contests.

**Responsibilities:**

- Layout according to maquette
- Write connecting with server
- Create store ecosystem
- Create database system
- Write middleware for checking users role
- Processing database queries
- Building production version

**Technologies/Environment:**

- Express
- MongoDB
- PostgreSQL

- Docker
- Socket.io
- Axios

## Frontend developer, Sparkpage

3 months

**Description:**

The platform for mailing process automatization.

A drag & drop Customer Journey Mapping tool to plan the perfect experience.

**Responsibilities:**

- Tasks implementation
- Code review
- Communication with the client

**Technologies/Environment:**

- React
- Redux
- JavaScript
- HTML
- CSS
- PHP
- CodeIgniter Framework
- MySQL

## Frontend developer, Isopen

8 months

**Description:**

A platform for selling goods with automatic mailing to Facebook and Instagram.

**Responsibilities:**

- Layout
- Coding
- Testing
- Building production version (using code minification, obfuscation, etc)
- Deployment options
- Handling security
- Implementation of UX to create a user-friendly interface

**Technologies/Environment**:

- JavaScript
- React
- React Native
- Redux
- MobX

- jQuery
- HTML
- CSS
- PHP
- Yii Framework
- MySQL
- Facebook API
- Instagram API

## Frontend developer, Astrology

6 months

**Description:**

Platform for ordering either astrologer or psychologist services.

**Responsibilities:**

- Team management
- Code review
- Coding
- Writing unit test
- Building production version (using code minification, obfuscation, etc)
- Deployment options
- Handling security
- Implementation of UX to create a user-friendly interface

**Technologies/Environment**:

- React
- React Native
- JavaScript
- jQuery
- HTML
- CSS
- PHP
- CodeIgniter Framework
- MySQL

## Frontend developer, Synergy Sport

1 year+

**Description:**

Analytical platform. Fantasy sport manager. Gambling.

**Responsibilities:**

- Project architecture handling
- Git flow management
- Code review/ pull requests review
- Estimation

- Coding
- Testing
- Tech communications with other teams

**Technologies/Environment**:

- React
- Redux
- React Native
- MobX
- JavaScript
- Bootstrap
- jQuery
- Lodash library
- HTML
- CSS
- SASS
