### EXPERIENCE

#### RPA Solution Architect

November 2018-till now

**Responsibilities:** I am Leading RPA COE global team to successfully establish RPA solutions and to deliver automations in all their regions. Also our goal is to deliver RPA automations to different clients with different requests.

## **RPA Senior Developer – RPA COE manager**

May 2018-till now

**Responsibilities:** Organizing RPA Developers and assisting them to develop RPA solutions. Creating automations that will speed up any desired internal process, creating documentation, working with UiPath and different automation tools like Chat bots and Machine learning models. Managing robots and tracking their work in Kibana Elastic search tool. Organizing servers and VDI machines where all tools are hosted.

## **RPA Developer - MSO Production Planning Project/Program Mgmt Analyst**

February 2017 to April 2018

**Responsibilities:** My job was to find the best RPA solutions, create robots that will speed up any Process that is repetitive, creating documentation, working with UiPath and Auto Hotkey tool. I was creating attended and unattended robots. Managing robots and tracking their work in Kibana Elastix search tool. Done many process for Wal-Mart, McDonald's, Call One, World Pay UK, Barclays, Royal Bank of Canada, Sobeys...

## **Technical support agent level 2**

2013 to January 2017

**Responsibilities:** Providing remote service and help for store associates in Wal-Mart stores all over USA. I was resolving hardware, software and network issues on ATM's, Self-Checkouts and Registers. Also, I was creating scripts that are able to replace some repetitive jobs to help my colleagues to finish job more efficiently.

## **Self computer service**

2005 to 2008 and from 2009 to 2013

**Responsibilities:** Servicing Hardware computer parts and installing Windows and base programs. Per request I was installing network solutions for homes and office locations.

## **EDUCATION**
