Android, Windows Phone, Xamarin, Outlook Add-ins, Outlook framework, React Native, Parse Platform, Firebase. - Upper-Intermediate English

TECHNICAL SKILLS

Main Technical Skills	MS Dynamics 365, Power Apps, Microsoft Power Platform, Canvas Apps
Programming Languages	C# (10 yr.), JavaScript (10 yr.), TypeScript (4 yr.)
JavaScript Frameworks	Angular, AngularJS (4 yr.), Express, jQuery (10 yr.), Node.js, React (4 yr.), Vue.js (5 yr.)
.NET Platform	ASP.NET, LINQ, MS Dynamics 365, .NET
JavaScript Libraries and Tools	React Hooks, React Native
Mobile Frameworks and Libraries	Xamarin
Databases & Management Systems / ORM	Firebase, Microsoft Azure SQL Server, Microsoft SQL Server (7 yr.), SQL
UI Frameworks, Libraries, and Browsers	Bootstrap (5 yr.), CAML (10 yr.), CSS (10 yr.), Fabric UI, Fluent UI (4 yr.), HTML (10 yr.), HTML5, jQuery (10 yr.), Material UI, Metro UI (3 yr.), SP-PNP
Cloud Platforms, Services & Computing	Firebase, MS Flow, PCF
Azure Cloud Services	Azure Cloud Functions, Azure DevOps, Microsoft Azure SQL Server
Platforms	Drupal 7, Microsoft Power Platform, Parse Platform, Power Automate, SharePoint
	Flows

Methodologies, Paradigms and Patterns	
Version Control	GitHub
Collaboration, Task & Issue Tracking	Jira
Third Party Tools / IDEs / SDK / Services	Office 365, Power Apps, Visual Studio (10 yr.), Web Services (10 yr.)
QA, Test Automation, Security	Postman
Scripting and Command Line Interfaces	PowerShell
SDK / API and Integrations	RESTful API
File Systems, Storage	XML
Other Technical Skills	CAML Query, DataVerse, Fluent UI 2, Model-driven apps, PNP, PnP Controls, PnP js, PnP Modern Search, PnP Property controls, PnP Provisioning, Portals, Power Pages

COMMERCIAL EXPERIENCE

Senior Software Engineer, Company tools Migration, HQ Software (05.2025 - Now)

- Design of Migrated Tools
- Functionality Development
- Data Model Design

Team: PM,BA,QA,5 Developers

Tools: Power Apps, Power Pages, Canvas-App, Model-Driven App, PowerPages, HTML, CSS, JS, PCF

Role: BA, Developer 04.2025 - Now

Project Name: Workspace Supplier Portal

- Development Power pages portal to onboard new suppliers with automated approvals
- Data Model Design
- Process Automation Design

Team: 1 Developer

Tools: Power Apps, Power Automate, Power Pages, SharePoint Online, HTML,CSS, JS,

Project Name: Safety Application, HALO Trust (03.2025 - 04.2025)

Role: BA, Architect, TechLead, Developer

- Development of an application for collecting employee responses
- Data Model Design

- Architecture Design

Team: Architect, BA, 2 developers, QA

Tools: SharePoint Online, Power Apps, Power Automate, CanvasApp, Model-Driven, Azure AI Speech Service, Azure MS Translator Service

Solution Architect, Developer, BA (11.2022 - 03.2025)

Project: Wort Time Report System, SoulTech AG

- Designing an application/solution from scratch
- Core functionality development
- Client requirement analysis

Team: Developer

Tools: SharePoint Online, Outlook Add-in SSO, ExpressJS API(NodeJS), HTML, CSS, JavaScript, TypeScript, ReactJS ,ReactJS Hooks, Bexio API

Software Engineer, O365Consultant 07.2024 - 03.2025

Project Name: Beyon, Hoganas Borgestad

Shapoint Online, Power Platform, Mobile App Development

- Office 365Consulting
- Development of Power Automate Flows for approving and generating technical documentation of products
- Development of functionality for mobile applications

Team: 1 Developer

Tools: SPFX, Power Platform, Power Apps, Power Automate, SharePoint online, React Native, Expo HTML, CSS, JS, React

Senior SharePoint Developer (10.2024 - 02.2025)

Project Name: IBS Knowledge HUB, Atos

- Sharepoint Developer
- Power Automate Developer

Team: PM, 2 Developers

Tools: SPFX, SharePoint Online, Power Automate, pnppowershell

O365 Consultant (04.2023 - 01.2025)

Project Name: Customer Support, Silvestrum Climate Associates

- Client Consulting Support

Team: 1 Consultant

Tools: Consulting of company employees across MS Office 365, Teams, SharePoint

Senior PowerApps Developer (09.2024 - 11.2024)

Project Name: EMCMERRGE

- Power Platform Development
- DataVerse Development

Team: PM, BA, DEV

Tools: PowerPlatform, CanvasApp, PowerAutomate, DataVerse

BA, Software Engineer (05.2023 - 05.2024)

Client Name: Taylor Business Group

Project Name: RTP Portal Development

- Core Functionality Development
- UI\UXDesign

Team: PM, QA, Developer, DevOps, BA

Tools: PowerPages, Dataverse(CDS), Model-Driven, Canvas App, Power Automate, SharePoint Online, PowerApps Component Framework(PCF), VueJS, ReactJS, HTML ,CSS, JS

Senior SharePoint Developer (12.2021 - 04.2023)

Project Name: Security Portal for Scale3c, DanskeBank

- Development of an Internal portal for the Security Department for quick access of company members to available services provided by the department

Team: PM, BA, QA, DEVELOPER

Tools: SharePoint 2019, SharePoint Designer 2013, HTML, CSS, JavaScript, jQuery, AngularJS,

Tech lead, Functional development, Design, Architect, Globus/DTEK

(October 2021 – December 2021)

Description: Development of a system for creating, supporting, and agreement processes for the allocation of land projects.

Technologies: SharePoint 2013, SharePoint Designer 2013, HTML, CSS, JavaScript, jQuery, MSSQL

Functionality development, Automation ORD

July 2021 – October 2021

Description: Develop an Onboarding process system using Power Apps, CDS, PowerAutomate

Technologies: SharePoint 2013, SharePoint Designer 2013, HTML, CSS, JavaScript, jQuery

Tech lead, Helpdesk

July 2021 – December 2021

Description: Develop an Onboarding process system using Power Apps, CDS, PowerAutomate

Technologies: SharePoint Online/Office 365, JavaScript, CSS, HTML, jQuery, ReactJS, FabricUI, SP-PNP, SharePoint Framework (SPFX), MS Flow

Tech lead, JiraData

July 2021 – December 2021

Description: Migration of Jira data internal reports based on MS Excel and MS SQL to PowerAutomate, DataVerse, PowerBi

Technologies: CDS(DataVerse), Power Automate, PowerBI, SQL

Functionality development, Onboarding process

January 2021 – July 2021

Description: Develop an Onboarding process system using Power Apps, CDS, and Power Automate

Technologies: Power Apps, CDS(DataVerse), Power Automate, Jira, Confluence, Scrum

Functionality development, Attestation customization process

November 2020 – January 2021

Description: Back-end development. Create lists, web-parts, pages

Technologies: MS Visual Studio 2019, SharePoint 2013, C#, HTML, CSS, JavaScript, jQuery

Functionality development, Attestation customization process

October 2020 – November 2020

Description: Update and customize the current attestation process.

Technologies: SharePoint Online (Office 365), Power Automate, Workflow Manager 2010/2013, SharePoint Designer 2013, HTML5, CSS3, JavaScript, Vue.js, Fabric UI.

Functionality development

August 2020 – September 2020

Description: Modifying and supporting the Parse Platform Web Application and the Mobile Android App for billing customers

Technologies: SharePoint Online, SPFX, NodeJS, Parse Platform, Firebase, JavaScript, ReactJS, React Native, TypeScript, HTML5, CSS3, Bootstrap

Functionality development

June 2020 – August 2020

Description: Modifying the Safety system ministry of construction in Israel

Technologies: SharePoint Online, SPFX, JavaScript, ReactJS, React Native, TypeScript, HTML5, CSS3, Bootstrap 4

Functionality development, Research Pool Outlook add-in

June 2020 – July 2020

Description: Creating of Outlook add-in for logging events to the internal system

Technologies: Outlook 2013/2016/365, Outlook framework: 1.8, ReactJS, TypeScript, HTML5, CSS3, Bootstrap

Functionality development, Expenses Allocation

April 2020 – June 2020

Description: Creating a system for allocating expenses within the company

Technologies: Microsoft Visual Studio 2019, SharePoint 2016, HTML5, jQuery, CSS3, jQuery UI, C#

Functionality development, Dynamics 365 Online

March 2020 – April 2020

Description: Customization of Power Apps portal for Dynamics 365

Technologies: Dynamics 365, Platform customization, API calls, JS, jQuery, HTML, AngularJS

Functionality development, Dynamics 365 Online

February 2020 – March 2020

Description: Customize of Power Apps portal for Dynamics 365

Technologies: Dynamics 365, Platform customization, API calls, JS, jQuery, HTML, AngularJS

Functionality development., Intranet portal National Bank of Ukraine

February 2020 — March 2020

Description: Corporate intranet portal

Technologies: SharePoint 2013, HTML5, jQuery, CSS3, Vue.js, MetroUI

Functionality development, Creating, Customizing, and Administering Office 365

December 2018 — January 2020

Description: Creating an Office 365 environment for the company, including custom solutions, SharePoint portals, and automating processes

Technologies: SharePoint Online/Office 365, JavaScript, CSS, HTML, jQuery, ReactJS, FabricUI, SP-PNP, SharePoint Framework (SPFX), MS Flow

Functionality development, Office 365 intranet portal

December 2018 — January 2019

Description: Creating a SharePoint Online intranet portal, including custom solutions and automating processes.

Technologies: SharePoint Online/Office 365, JavaScript, CSS, HTML, jQuery, ReactJS, FabricUI, SP-PNP, SharePoint Framework (SPFX), MS Flow

Functionality development, Dynamics CRM Intranet

September 2018 – December 2018

Description: Creating and supporting the Dynamics internal portal

Technologies: Dynamics CRM 2016, Plug-in Assemblies, Platform customization, Web-resources, API calls, Processes, JS, jQuery, HTML

Functionality development, Creating, Customizing and Administering Office 365

May 2018 — December 2018

Description: Creating an Office 365 environment for the company, including custom solutions, SharePoint portals, and automating processes

Technologies: SharePoint Online/Office 365, JavaScript, CSS, HTML, jQuery, ReactJS, FabricUI, SP-PNP, SharePoint Framework (SPFX), MS Flow

Functionality development, Electronic Document Management system

January 2018 — April 2018

Description: Electronic Document Management system for a government structure

Technologies: Microsoft Visual Studio 2015, SharePoint 2016, HTML5, jQuery, CSS3, Bootstrap, jQuery UI, C#, ASP. Net, Data Tables.

Web Developer, SharePoint Developer, KW Project Tickets Management System Online

September 2017 – January 2018

Description: Migration of the SharePoint On-Premises custom Property Tickets Management System to SharePoint Online.

Technologies: SharePoint Online, SP-PNP, SharePoint Framework (SPFX), JavaScript, HTML, CSS, MS Flow, jQuery, Data Tables

Functionality development, Dynamics 365 CRM Intranet

October 2017 – June 2018

Description: One of the biggest sellers of heavy vehicles in Europe and work. The Main Goal is to support the Dynamics internal portal system and customize existing solutions

Technologies: Dynamics CRM 2016, Plug-in Assemblies, Platform customization, Web-resources, API calls, Processes, JS, jQuery, HTML

Web Developer, SharePoint Developer, KW Project Tickets Management system

June 2017 – September 2017

Description: Creating from scratch of Property Tickets Management System for internal use.

Technologies: SharePoint 2013, C#, ASP .NET, JavaScript, jQuery, Data Tables

Web Developer, SharePoint Developer, Help Desk for Back Office

May 2017 – May 2018

Description: Help Desk for Back Office – module application to order a variety of services: taxis, Office, chores, car repairs and maintenance, travel, vacation, etc. Supporting and developing workflows and forms.

Technologies: SharePoint 2013, Nintex Workflow 2013, Nintex Forms 2013, HTML5, jQuery, CSS3

Web Developer, Team Lead, Internal portal Taurus Quadra

March 2017 – May 2017

Description: Reengineering Internal Portal. Involved in a project as a Team Leader for increasing skills in SharePoint for other developers, Web Developer. The main goal is full portal Re reengineering.

Technologies: SharePoint 2013, C#, ASP .NET, JavaScript

Web Developer, Mobile Developer, Slavutych Citywide module "Urban amenities" box Version

September 2016– February 2017 (5 months)

Description: Involved in rebuilding of whole project "Urban amenities" for the box Version and recreating mobile Apps for the project.

Technologies: SharePoint 2010, C#, ASP .NET, JavaScript, Xamarin. Android, Win Phone

Developer, Slavutych public budget

August 2016– September 2016 (1 month)

Description: Creating a site for accommodation, organization of voting, and selection of projects in order to allocate to the city budget

Technologies: Drupal 7, HTML, JavaScript, CSS

Web Developer, Slavutych Citywide module "Urban amenities"

June 2016– August 2016 (2 months)

Description: Recast the module of Slavutich Citywide module "Urban amenities" and the creation of browser-based applications to work with the module.

Technologies: SharePoint 2010, C#, Xamarin, ASP.NET, JavaScript

Web Developer, Internal portal
