

Hiring software engineer as easy as calling a taxi.

Illya T.

Java Software Engineer

SUMMARY

- 3+ years experience in the IT industry as a Java developer
- Has skills in developing microservice applications
- Has experience in programming Spring Framework, Hibernate
- Great knowledge of Java Core
- Upper-Intermediate English
- Available ASAP

SKILLS

Main Technical Skills	Java
Programming Languages	C++
JavaScript Frameworks and Libraries	Angular
UI Frameworks, Libraries, and Browsers	Bootstrap, CSS, HTML
Mobile Frameworks and Libraries	Mockito
Java Frameworks and Libraries	Spring Boot, Spring Data, Spring Security
Databases & Management Systems / ORM	Flyway, Hibernate, MySQL, PostgreSQL
Cloud Platforms, Services & Computing	AWS
QA, Test Automation, Security	Apache Maven, JUnit, Mockito
Third Party Tools / IDEs / SDK / Services	Eclipse, Microsoft Visual Studio
Version Control	Git, SVN
Collaboration, Task & Issue Tracking	Jira, Redmine

Operating Systems	Linux, Windows
Methodologies, Paradigms and Patterns	microservices architecture, Scrum
SDK / API and Integrations	OpenAPI, RestTemplate, Swagger
Other Technical Skills	JetBrains IntelliJ IDEA

EXPERIENCE

FirstCare

December 2021 – October 2022

Description: The app for maintaining the UK's largest database on absence, covering 185,000 employees and recording more than 10.2 million absences.

This app offers a simple, effective way to improve productivity by reducing absence and its associated costs.

Responsibilities: Developing a new module that allows users to subscribe to scheduled reports which are generated automatically and according to the schedule sent to users' emails.

Technologies: Java 8, Spring: Boot, Security(Oauth2, JWT), MVC, Data, JPA, MS SQL Server, ORM - Hibernate, REST, Maven, JUnit4, Mockito, GitBucket, Jira, Confluence, Flyway, Docker, Docker-compose, ModelMapper, Swagger.

INSK

October 2020 - December 2021

Description: Web Application for an insurance company. Microservice application based on the Spring boot and Hibernate technologies.

Responsibilities: Back-end development; designing and creating new features, bugfix.

Technologies: Java 8, PostgreSQL 12, Hibernate, Liquibase (design, migration), Spring-Boot 2, AWS, Flyway, Spring Security, Microservices

Tools for project management

October 2019 - March 2020

Description: Application for automatization of sales and recruiting processes.
