

Amrit S.

Senior B.Tech (Computer Science Engineering)

SUMMARY

- Being a Java Developer for 6+ years
- I've got to know not only the SDLC but also how to work in a team as well as individually, team management and also how to deal with the clients. This is how I've contributed to the company's growth along with my personal growth side by side.
- A bit I've learned, and a lot to be explored further for which I am always looking ahead.
- Upper-Intermediate English.
