Yaroslav Z
Junior Software Test Engineer (manual QA)

SUMMARY

- Software Test Engineer with 2 years of experience in an agile Android/iOS application development environment. - Proficient in writing tests for software and implementing testing methodologies (CMM, RUP, MSF). - Experienced in using bug logging systems like Rational ClearQuest and Jira. - Strong command of English, allowing for reading and composing technical texts and reports. - Achieved a 45% reduction in order fulfillment time through effective testing strategies. - Skilled in analyzing and clarifying requirements, planning testing processes, and tracking bugs. - Continuously optimizing the testing process and improving team work processes.

TECHNICAL SKILLS

Main Technical Skills	Manual Testing (2 yr.)
Android Libraries and Tools	Android apps
Methodologies, Paradigms and Patterns	Agile, Rational Unified Process (RUP)
Operating Systems	iOS
Collaboration, Task & Issue Tracking	Jira
QA, Test Automation, Security	Manual Testing (2 yr.)
Other Technical Skills	CMM, Manual QA, MSF

WORK EXPERIENCE

Work Experience

QA Manual, Quality Assurance

Duration: July 2021 – June 2023

Summary: Spearheaded testing strategies that led to a **45% reduction** in order fulfillment time and ensured optimal software performance and reliability.

Responsibilities:

- Analyzed and clarified requirements with customers and analysts.
- Planned and executed comprehensive testing processes, focusing on main User journeys, Admin panel functionality, and CMS.

- Performed **API testing** for 3rd party services integration, ensuring seamless functionality and interoperability.
- Conducted bugs lifecycle tracking and re-testing of subordinate defects.
- Documented test cases thoroughly and maintained comprehensive test documentation.
- Continuously optimized the testing process and conducted regular analysis of team work processes.
- Implemented process improvements to enhance team efficiency and software reliability.

Technologies:

- **API Testing:** Familiar with **Swagger** for API testing and documentation.
- **Testing Methodologies:** Knowledgeable in CMM, RUP, MSF methodologies.
- **Bug Logging Systems:** Proficient in using Rational ClearQuest and Jira.

EDUCATION

- **Chernihiv Polytechnic National University**
  Specialty "Computer Engineering"

CERTIFICATION

- **QaTestLab**
  Testing training center
  [April 2020] — [June 2021]
- **Stepik**
  Courses on test automation using Selenium and Python
  [June 2021] — [August 2021]
- **Udemy**
  Course AWS Certified Solution Architect Associate
  [October 2022] - [December 2022]
