

Serhiy Toroniy

Junior Software Engineer

SUMMARY

Dedicated Full Stack Developer with experience in a diverse range of technologies and methodologies, including C#, HTML/CSS/JS, .NET Framework, Umbraco CMS, ASP.NET MVC, Entity framework, SQL, and React. Proven ability to develop, maintain, and refactor code for large-scale projects as part of the OSKI solutions team, with a specialty in CRM systems and file uploader integration. Proficient in both front-end and back-end development, they have contributed to web portals for movie sharing, sports news, and a Windows benchmarking application. Adept at Agile practices with a track record of successful collaboration using tools like GitHub and Jira. Holds an MSC in Computer Science from Ivan Franko National University of Lviv, underpinning strong technical expertise. The developer's portfolio demonstrates a versatile skill set spanning from ASP.NET Core to Python and C++, reflecting a commitment to continuous learning and excellence in software engineering.
