Programming Languages	ECMAScript (5 yr.), JavaScript (8 yr.), TypeScript (5 yr.)
UI Frameworks, Libraries, and Browsers	Ajax (5 yr.), Bootstrap (5 yr.), CSS (7 yr.), HTML (8 yr.), SCSS (5 yr.), Tailwind CSS (4 yr.)
JavaScript Frameworks	Express (4 yr.), GatsbyJS (2 yr.), NestJS (3 yr.), Node.js (5 yr.), Nuxt (4 yr.), React (6 yr.), Vue.js (5 yr.)
Java Libraries and Tools	JSON (6 yr.)
PHP Frameworks	Laravel (5 yr.)
Databases & Management Systems / ORM	MongoDB (3 yr.), MySQL (4 yr.)
Cloud Platforms, Services & Computing	AWS (3 yr.)
Methodologies, Paradigms and Patterns	Agile (3 yr.), MVC (5 yr.)
SDK / API and Integrations	API, GraphQL (3 yr.), RESTful API
Version Control	Git (7 yr.), GitHub (5 yr.)

EXPERIENCE

Full Stack Engineer, Self employed

May 2021 to Present

Full Stack Developer, WebDesk Solution - New York, NY

June 2019 to April 2021

- Designed and developed front end using Bootstrap, Tailwind CSS, Vue, Nuxt, React, Next and Typescript
- Used Redux/Vuex for maintaining the state and used the store state management.
- Integrated RESTful APIs with our application using Redux/Vuex and handled async operations on data.
- Implemented lots of reusable components which are used across multiple projects.
- Developed components as per design templates and used SCSS for maintaining style across application
- Implemented hot reloading and build process using Web Pack and used Yarn to manage package dependencies
- Developed backend APIs using Laravel and node based express
- Automated testing using Jest and Cypress
- Used Git for version control, source management and deployed whole code
- Maintained the project with Github CI/CD tools
- Used Jira board for agile project development and management

Front End Developer, CS Web Solutions - Mississauga, ON

April 2017 to February 2019

- Leveraged React Context API and React Hooks
- Designed an event-driven state management system with predictable, unidirectional data flow
- Handled asynchronous behavior without the overhead of a third-party state management library
- Utilized Typescript to enforce static typing and implement interfaces to catch errors earlier, guide development
- Made the application easier to scale and maintain
- Accomplished the responsive mobile design using CSS to build out custom breakpoints and media queries for mobile, laptop, and desktop.

Front End Web Developer, Brights - Kiev, Kiev

May 2015 to November 2016

- Developed beautiful interfaces with HTML, CSS and JavaScript
- Excellent experience in test and debug code as a positive team member
- Communicated with clients and effectively translated client requirements into application designs
- Worked well within in a team setting
- Learning web design and frontend development

PUBLICATIONS

Social Network for Holistic Health

https://goji.live
This is built on React and Ruby on Rails. I developed this website within a team and I was responsible for improving frontend UI and implementing authentication, integrating several third-party services.

ChildCare

http://www.wee-ones.co.uk
Wee Ones offers Full Day care through its Nursery and Montessori School for the children.
This is built on Laravel. I worked with the client directly and developed this website by myself.

VR Goggle

https://flysight.com
This is built on React. I developed website within a team.
I took part in developing this website and I was responsible for making components for the frontend pages.

Shop for skincare products

https://uruoiskincare.com
This is built on Nuxt.js and Contentful CMS. I developed this within a team.
I was responsible for making components for PDP, cart modal, getting products data calling headless CMS api.

Food Solutions

https://www.innit.com
This is built on Nuxt.js and Prismic CMS. I developed this website within a team.
This site provide food information and several solutions to consumers for health.
I was responsible for building the pages and managing food solution contents in Prismic.

Event Management

https://www.stanza.co
This is built on MERN stack. I developed this site within a team.

Quiz

https://grizly.com
This is built on Vue.js. I developed this myself.

EDUCATION

Bachelor of Engineering in Computer Science
The University of Hong Kong - Hong Kong
April 2011 to November 2014

Courses of Front-End Web Development With React Specialization in HKUST
2015 - 2016

- Course 1: Front-End Web UI Frameworks and Tools: Bootstrap 4
- Course 2: Front-End Web Development with React
- Course 3: Server-side Development with NodeJS, Express and MongoDB
