

Yurii T.

Senior Full-stack Developer

Full Stack Web, Back-End Web

Profile

- Senior Full-stack Developer with over 10 years of programming expertise and strong focus on JavaScript technologies.
- Proficient in designing and developing distributed systems, databases, and backend architecture with a drive to keep the front-end simple for performance on less capable devices.
- Robust skills in Angular, React, Node.js, Express.js, PostgreSQL, MongoDB, microservices, AWS, and Kubernetes, among others.
- Conducted code reviews, led teams, and executed seamless transitions from legacy systems to modern architectures in various projects.
- Uses Agile and SCRUM methodologies to improve team efficiency and product quality.
- Graduated with a Bachelor's degree in Computer Systems Analysis, grounding a solid understanding of software engineering principles.
- Strong communicator, adept at collaborating with cross-functional teams to design API interfaces, optimize feature development, and deliver high-value solutions to clients.
