WORK EXPERIENCE

Full-stack Developer

Duration: November 2021 - Present
Summary: A trekking platform based on blockchain technology. With the help of certificates created in the application, you can track the materials along the entire route, starting from the place where the materials were mined and ending with the end point where the materials will be used. Data security is achieved thanks to the blockchain protocol developed by Minspider.

Responsibilities: Full-stack development
Technologies: Node.js, Nestjs, Typescript, PostgreSQL, TypeORM, Prisma, Blockchain, Kubernetes, DigitalOcean, GitLab, Sendgrid, MailHog

Full-stack Developer

Duration: June 2021 – November 2021
Summary: An innovative technical solution for the improvement of leadership in companies. Customer is managing future-proof companies from mid-size to large (such as Siemens). This product is an engaging, cost-saving, and measurable way to make your company more robust & resilient.
Responsibilities: Full-stack development
Technologies: React, Redux, Thunks, GraphQL, Node.js, Express.js, Sequelize ORM, PostgreSQL, Docker, Firebase, Redis, Cron, Mailjet, CI/CD, Unit testing - chai and sinon

Back-end Developer

Duration: March 2021 – June 2021
Summary: A survey app for teenagers.
Responsibilities: Back-end development
Technologies: Node.js, Express.js, Sequelize ORM, PostgreSQL, Docker

Full-stack Developer

Duration: December 2020 – March 2021
Summary: Building Organizer to manage machine drivers work on fields.
Responsibilities: Full-stack development
Technologies: React.js, React Saga, React Redux, React Hooks, Node.js, Express.js

Full-stack Developer, Cryptocurrency ecosystem

Duration: May 2019 – December 2020
Summary: Building several microservices: deposits, gift cards, and an admin panel that collects all of the statistics from the marketplace.
Responsibilities: Full-stack development
Technologies: React.js, React Saga, React Hooks, Node.js, Express.js

Full-stack Developer, Party-maker

Duration: November 2018 – April 2019
Summary: Web app that can serve different sizes of businesses, to help them organize any type of event: meetups, parties, team building etc.
Responsibilities: Full-stack development
