Rashad S.
Senior Software engineer

SUMMARY

- Skilled and results-oriented software developer with more than 5 years of experience working in a variety of environments with a breadth of programs and technologies. - Solid background and advanced knowledge in computer development software including PHP, Javascript. - Skilled in working with database management tools such as MySQL, MongoDB. - Ability to solve complex problems successfully with minimal guidance or help using a logical reasoning technique and a strong attention to detail. - Fluent English

TECHNICAL SKILLS

Main Technical Skills	PHP
Programming Languages	JavaScript, PHP
JavaScript Frameworks	Angular, AngularJS, Express, jQuery, Node.js, React, Vue.js
Mobile Frameworks and Libraries	Ionic
PHP Frameworks	Laravel, Lumen, Slim, Symfony
JavaScript Libraries and Tools	Vuex
Databases & Management Systems / ORM	AWS ElasticSearch, MongoDB, MySQL, Redis, SQL
UI Frameworks, Libraries, and Browsers	Bootstrap, CSS, HTML, jQuery
Cloud Platforms, Services & Computing	AWS
Amazon Web Services	AWS ElasticSearch
Virtualization, Containers and Orchestration	Docker
SDK / API and Integrations	Facebook API

EXPERIENCE

KSMG(ksmg.se)

07/2021 - 10/2022
Responsibilities:

- Create software, applications, and scalable web services
- Design, test, and implement software application

Technologies: PHP, Symfony, Vue, Vuex, React, MySQL, Elasticsearch, Redis, Docker, Facebook API, AWS

Corcentric (corcentric.com)

01/2020 - 06/2021
Responsibilities:

- Hands-on software development, working across multiple codebases, environments, and problems/contexts.
- Developing highly scalable, reliable, and resilient systems.

Technologies: PHP, Symfony framework, Laravel, Vue, Vuex

Blueplanet (Sports, retail, fashion - gosport.az, courir.az, avenueoutlet.az)

06/2019 - 01/2020
Responsibilities:

- Participate in the full lifecycle of development for the company website using MongoDB, ExpressJs, ReactJs, NodeJs (MERN stack).
- Solve software errors by running extensive testing processes and analyzing details about the program settings.
- Improved the efficiency of an e-commerce suite of enterprise software by more than 60% with revisions and workflow changes.

Foodorder & Nuush (Food delivery companies)

12/2017 - 06/2019
Responsibilities:

- Participate in the full lifecycle of development for company website and application using Angular framework, PHP, Laravel framework, and Ionic framework for IOS and Android applications.
- Revised programming and software development projects by updating code and working to improve functionality.

Apa Holding (Several media structures - apa.az, lent.az)

12/2016 - 12/2017
Responsibilities:

- Participate in backend development for the company website using PHP (Laravel Framework), Redis, and MySql.
- Large Scale Data Analysis.
- Lowered a software package's error and bug rate by 87% with a new series of updates and programming revisions.

EDUCATION

Computer science, Akademia WSB, Krakow, Poland
10/2021

High School, Baku, Azerbaijan, Graduated summa cum laude—4.8+ GPA
06/2012
