

## Victor Kipchumba

### Senior Bachelor In Information Technology Student- software engineering

#### SUMMARY

- Proficient in front-end and back-end development with expertise in HTML, CSS, Ruby, Java, and Vim, complemented by 4+ years of academic and practical experience in Information Technology.
- Currently engaged in networking projects, applying software development lifecycle (SDLC) principles to deliver scalable and maintainable solutions.
- Strong foundation in software engineering methodologies, with hands-on experience in programming paradigms and tools including Blender for technical visualization.
- Academic background from Karatina University, specializing in Information Technology, ensuring a solid understanding of computer science fundamentals and engineering principles.
- Demonstrated ability to integrate diverse technologies and tools to optimize system performance and user experience in real-world applications.

#### TECHNICAL SKILLS

<b>Main Technical Skills</b>	HTML, CSS, Ruby, Java
<b>Programming Languages</b>	Java, Ruby
<b>UI Frameworks, Libraries, and Browsers</b>	CSS, HTML
<b>Third Party Tools / IDEs / SDK / Services</b>	vim
<b>Other Technical Skills</b>	Blender 3D

#### WORK EXPERIENCE

##### Networking

Duration: 07/2024 – present

## EDUCATION

- **Bachelor In Information Technology**  
Karatina University, Nyeri, Kenya  
09/2020 – 09/2024
