

# Zaur Aliyev

## Senior Senior Frontend Engineer

### SUMMARY

Software engineer with extensive experience in front-end development, including senior roles at AFEA Group and DAN.IT education. Proven track record in leading teams and teaching advanced JavaScript, evidenced by tenure as Senior Frontend Instructor. Holds a Bachelor of Computer Science with a notable GPA, underpinning a solid theoretical understanding of software engineering principles. Expertise in a broad technology stack including JavaScript (ES6, TypeScript, Three.js), React, Redux, and modern development tools (Webpack, Vite). Demonstrated ability to implement robust web solutions as seen in projects like an online QR code generator and a performance management platform. Proficiency in Agile/Scrum, SDLC, and Continuous Integration/Continuous Deployment (CI/CD) methodologies, enhancing project efficiency and deliverable quality.

### TECHNICAL SKILLS

<b>Main Technical Skills</b>	JavaScript, TypeScript, React, Redux
<b>Programming Languages</b>	JavaScript, TypeScript
<b>JavaScript Libraries and Tools</b>	Enzyme, NPM + Yarn, Redux, Redux-Saga, Styled components, three.js, Vite
<b>JavaScript Frameworks</b>	React, three.js
<b>UI Frameworks, Libraries, and Browsers</b>	Styled components
<b>QA, Test Automation, Security</b>	Jest
<b>Third Party Tools / IDEs / SDK / Services</b>	NPM + Yarn
<b>Methodologies, Paradigms and Patterns</b>	SDLC
<b>SDK / API and Integrations</b>	Stripe
<b>Platforms</b>	Zendesk

<b>Other Technical Skills</b>	Hotjar
-------------------------------	--------

## WORK EXPERIENCE

### **Full Stack Developer, Online QR Code Generator**

**Duration:** September 2017 - January 2020

**Summary:** Online QR Code Generator development catering to quick QR code creation and management.

**Responsibilities:** Involved in the frontend development and implementation of advanced JavaScript features.

**Technologies:** JavaScript, HTML, CSS, Modern JavaScript Frameworks, Backend Technologies

### **Senior Software Engineer, Performance Management Systems and Workplace Gamification Platform**

**Duration:** January 2022 - August 2022

**Summary:** Development of a Performance Management Systems and Workplace Gamification Platform.

**Responsibilities:** Senior frontend development and integration with backend systems.

**Technologies:** JavaScript, React, Redux/Mobx, REST/GraphQL, Agile/Scrum

### **Senior Frontend Engineer, Heating Spares Finder and Ordering Platform**

**Duration:** September 2021 - February 2023

**Summary:** Creation of a heating spares finder and ordering platform for the UK market.

**Responsibilities:** Managing frontend development tasks and ensuring high performance across platforms.

**Technologies:** React, Material-UI, Styled Components, Webpack, REST/GraphQL

### **Mid/Senior Front-End Engineer (Lead), Online Flight Search Booking Website**

**Duration:** June 2021 - December 2021

**Summary:** Online flight search booking development servicing the Egypt travel market.

**Responsibilities:** Leading a team in developing the frontend with strong emphasis on UI/UX design.

**Technologies:** React, Redux, JavaScript (ES6), Bootstrap, Agile/Scrum

### **Middle Frontend Developer, Shopping Website + Delivery Service**

**Duration:** July 2020 - September 2021

**Summary:** Development and launching of a shopping website with integrated delivery service.

**Responsibilities:** Responsible for both frontend and backend development, ensuring responsive design and seamless delivery integration.

**Technologies:** Full Stack Technologies, JavaScript, HTML/CSS, Modern Frontend Libraries/Frameworks

## **Senior Frontend Engineer, Meeting Section Implementation**

**Duration:** April 2020 - August 2022

**Summary:** Work on the meetings section of a project catering to the US market.

**Responsibilities:** Participation in the development of the meetings section focusing on frontend tasks.

**Technologies:** React, Tailwind, Zustand, Rest/GraphQL, Git

## **Senior Frontend Engineer, Tezibu Shopping Website & Delivery Service**

**Duration:** July 2020 - September 2021

**Summary:** Design and construction of a web application for the Azerbaijan market.

**Responsibilities:** Full lifecycle application development including user interface design, functionality implementation, and maintenance.

**Technologies:** JavaScript, React, HTML/CSS, REST/GraphQL

## **EDUCATION**

- **ASOIU Bachelor of Computer Science - BBA program**

GPA : 3.7 / 4

4

- **IBA Tech Academy**

The education program was based on the Israeli method for training IT personnel - Telem.

1

## **CERTIFICATION**

- **Modern and advanced JavaScript and front-end engineering online courses**

frontmasters.com Course
