

Srishti Sharma

Junior Flutter & React Native Developer

SUMMARY

Engineer pursuing a Bachelor's in Computer Science at Parul University with a 8.30 CGPA, specializing in cross-platform mobile development using Flutter and React Native. Demonstrated expertise in Java, Python, TypeScript, and Dart, with hands-on experience in Firebase, Appwrite, and MongoDB for backend integration. Proven track record in building responsive, UI-intensive applications and websites, emphasizing performance, smooth navigation, and modern design patterns. Skilled in UI/UX design with Figma and frontend frameworks like Tailwind CSS and Material UI, ensuring consistent, user-friendly interfaces. Experienced in full SDLC, implementing authentication, CRUD operations, and database management across multiple projects.

TECHNICAL SKILLS

Programming Languages	JavaScript (1 yr.)
JavaScript Frameworks	Node.js
JavaScript Libraries and Tools	React Native (1 yr.)
UI Frameworks, Libraries, and Browsers	CSS (1 yr.), HTML (1 yr.)

WORK EXPERIENCE

Flutter & React Native Developer, College Food Delivery App

Duration: 2024

Responsibilities: Developed a college-based food delivery mobile application with a modern UI. Implemented user authentication using Firebase/Appwrite. Built CRUD functionality for food items, orders, and user data. Focused on smooth navigation, performance, and user-friendly experience.

Technologies: Flutter, Firebase, Appwrite, Figma

Frontend Developer, Netflix Clone

Duration: 2024

Responsibilities: Created a responsive Netflix-inspired UI clone with structured layouts. Focused on UI consistency, responsiveness, and clean component structure. Practiced real-world frontend design patterns and layout systems.

Technologies: HTML, CSS, JavaScript, JSX

Frontend Developer, Virtual Play Zone Website

Duration: 2024

Responsibilities: Designed and developed an interactive virtual play zone website. Implemented UI-heavy sections with animations and smooth transitions. Improved user engagement through modern visual elements.

Technologies: HTML, CSS, JavaScript

Frontend Developer, Airbnb Clone

Duration: 2023

Responsibilities: Built a clean and responsive Airbnb-style landing page. Focused on layout structuring, responsiveness, and usability. Ensured cross-device compatibility and consistent UI behavior.

Technologies: HTML, CSS, JavaScript

Frontend Developer, Pinterest Minimal Clone

Duration: 2023

Responsibilities: Developed a minimal Pinterest-style application with functional UI. Implemented user authentication and database-backed content storage. Built CRUD functionality for posts and user-generated content.

Technologies: HTML, CSS, JavaScript, MongoDB
