Artem T.
Middle Full-stack developer

SUMMARY

- Full-Stack Developer with 4+ years of experience in software engineering;
- Skilled in building responsive UI using React, Next.js, TypeScript, Tailwind, and MUI;
- Strong experience in Java and Spring Boot for back-end development;
- Proficient in API development, integration, and optimization for performance;
- Experienced with PostgreSQL, MySQL, and Oracle for database management;
- Familiar with Node.js for scripting and backend tasks;
- Hands-on experience with unit and integration testing using Jest, React Testing Library, and JUnit;
- Solid understanding of SDLC, CI/CD, and application deployment processes.

TECHNICAL SKILLS

Main Technical Skills	TypeScript, React, Ext JS, Java, Spring Boot
Programming Languages	Java, TypeScript
UI Frameworks, Libraries, and Browsers	CSS, SCSS, Tailwind CSS
JavaScript Frameworks	Ext JS, Node.js, React
JavaScript Libraries and Tools	mui
Java Frameworks	Spring Boot
Databases & Management Systems / ORM	Oracle Database, Prisma
Cloud Platforms, Services & Computing	AWS
Google Cloud Platform	GCE
QA, Test Automation, Security	Apache Maven
Version Control	BitBucket, Github Actions

Deployment, CI/CD & Administration	CI/CD, Gradle
Virtualization, Containers and Orchestration	Docker, GCE
Other Technical Skills	Drizzle

WORK EXPERIENCE

Software Developer, Application Transformation to PWA

Duration: September 2023 – Present

Summary: Participated in the transformation of an application from a native to a Progressive Web App (PWA) using React and Next.js.

Responsibilities: Developing and maintaining APIs, optimizing database requests for performance improvements, and participating in product design and architecture.

Technologies: React, Next.js, Spring Boot.

Software Developer, New Service Development

Duration: June 2021 – August 2023

Summary: Developed a new service from scratch with a focus on creating accessible and responsive user interfaces.

Responsibilities: Taking part in the creation of concept designs for new services, implementing UI, and improving the integration tests development process for better test coverage.

Technologies: Typescript, React, HTML, CSS, SCSS, Tailwind, MUI, Jest, React Testing Library

System Administrator, Server, and Database Management

Duration: February 2020 – June 2021

Summary: Managed and optimized various server and database services to enhance performance and customer satisfaction.

Responsibilities: Managing web, email, and FTP servers, setting up environments for application deployment, analyzing and fulfilling customer requests, and improving and extending internal scripts.

Technologies: Server Management, Database Management, Scripting

EDUCATION

- **Bachelor's degree**
- Field of study: Informatics
- October 2019 – June 2022
