Lokesh K
Middle RPA Consultant

SUMMARY

Software engineer with 3+ years of experience specializing in RPA development across various sectors like E-Commerce, Healthcare, Finance, and Banking. Holds expertise in complete SDLC & RPA lifecycle management, including bot development with Power Automate, UiPath, and the Power Platform suite. Architectural and end-to-end implementation proficiency complemented by strong analytical skills and a track record of delivering high-quality solutions that align with client requirements. Notable achievements include client and business team appreciations for exceptional support and project deliverables. Holds a Master's in Information Systems and several certifications, including PL 900 and PL 500.

TECHNICAL SKILLS

Main Technical Skills	RPA (3 yr.), Power Automate (2 yr.), Visual Basic .NET, ASP.NET MVC
Programming Languages	JavaScript, PHP, VBScript
.NET Platform	ASP.NET MVC, Visual Basic .NET
Java Libraries and Tools	Jasperreports
Data Analysis and Visualization Technologies	Tableau, UIPath
Databases & Management Systems / ORM	Microsoft SQL Server, SSRS
UI Frameworks, Libraries, and Browsers	XPATH
Cloud Platforms, Services & Computing	AWS, Azure
Third Party Tools / IDEs / SDK / Services	Excel
Collaboration, Task & Issue Tracking	Jira
Virtualization, Containers and Orchestration	Oracle VM VirtualBox
Platforms	Power Automate (2 yr.), RPA (3 yr.), UIPath
Scripting and Command Line Interfaces	PowerShell

QA, Test Automation, Security	QA Automation
UiPath	UIPath
File Systems, Storage	XML
Other Technical Skills	Blue Prism

WORK EXPERIENCE

RPA Consultant, Process and Business Unit Document Application

Duration: Sep 2022 – Present
Summary: Designed and deployed a comprehensive application using Power Apps to consolidate process and business unit documents for GEICO, with data storage in SharePoint and admin monitoring capabilities.
Responsibilities: Creating reusable components, designing and configuring Power App solutions and Power Automate flows, database interactions, client consultations, VB.NET and ASP.NET automation script development, migrating processes from UiPath to Power Automate, web application maintenance, ensuring documentation and KT, and end-to-end deployment.
Technologies: Power Apps, Blue Prism, Power Automate, UiPath, PowerShell, Email Automation, HTML, VB.NET, ASP.NET, Web Services, CSS, Azure, Cloud

RPA Developer, Insurance and Financial Services Automation

Duration: Jan 2021 – July 2021
Summary: Automated key operations and developed bots for AIG to enhance the efficiency of property casualty insurance and financial services.
Responsibilities: Creating Solution Design Documents and Process Design Documents with SMEs, handling exception scenario development, RPA configuration, test cases review, deploying on AWS, UiPath workflows optimization, Salesforce automation scripts, RPA project management, automated report generation with PowerShell, and providing both Pre and Post-production support.
Technologies: Power Automate, AWS, Email Automation, UiPath, Web Automation, Excel, APIs, Data Integration, Agile Scrum

RPA Developer, Finance Automation and Integration with SAP

Duration: Dec 2019 – Jan 2021
Summary: Implemented finance automation using the Power Platform, managing investment processes and integrating with SAP for Godrej's finance domain.
Responsibilities: E2E automation of Finance & Accounting, Supply chain, HR, and Banking processes, requirement gathering, workflow creation, PowerShell scripting for security and compliance, Workday custom workflow creation, integration with web services and APIs using Java, maintenance of automated processes involving SAP and various web applications, PowerShell scripting with Task Scheduler, and staging and deploying automation solutions.
Technologies: Power Automate, Java, Power Automate Desktop, PowerShell, Python, HTML, Power Apps, SAP, Excel, Outlook
