MEEZAN AHMAD
Senior Senior Engineer / Senior QA Engineer / Production Analyst / Senior Developer / Robotics Specialist / Automation Developer / Trainee / Freelancer

SUMMARY

An adept RPA Developer with over 7.5 years in IT, specializing in end-to-end RPA solutions using UiPath and MS Power Automate. Experience includes over 50 successful projects across Banking, Healthcare, and more, with proficiency in integrating applications such as ServiceNow and SharePoint. Strong grasp of SDLC and project management, certified in UiPath Advanced RPA (UIP00197988) and Azure Fundamentals. Led teams in design, testing, deployment, and optimization of automation solutions, demonstrating a commitment to efficiency, compliance, and continuous improvement.

TECHNICAL SKILLS

Main Technical Skills	RPA (7 yr.), UIPath (7 yr.), Power Automate, JSON, SAP
.NET Platform	Azure, LINQ
Java Libraries and Tools	JSON
Data Analysis and Visualization Technologies	Kibana, UIPath (7 yr.)
Databases & Management Systems / ORM	MongoDB, MySQL, SQL
UI Frameworks, Libraries, and Browsers	HTML, XML
Cloud Platforms, Services & Computing	Azure
Platforms	Citrix, Power Automate, RPA (7 yr.), SAP, UIPath (7 yr.)
Version Control	Git
Third Party Tools / IDEs / SDK / Services	Office 365

1

Message/Queue/Task Brokers	RabbitMQ
SDK / API and Integrations	RESTful API
Logging and Monitoring	Splunk
UiPath	UIPath (7 yr.)

WORK EXPERIENCE

Trainee, Online Examination

Duration: Jan 2018 - May 2018

Summary: Online Examination support including question updates across multiple study streams and backend response management.

Responsibilities: Update questions on web pages, manage responses in local database.

Technologies: Local Database, Web Technologies

Automation Developer, Assorted Projects (India Oil, First Advantage, Abby Flexi Capture, DQF)

Duration: May 2018 – Oct 2019

Summary: Assisted in RPA development for tasks automation.

Responsibilities: Evaluate business processes, develop RPA bots, create workflows, support testing, deployment, and monitoring of RPA solutions, maintain documentation, provide error handling and issue resolution.

Technologies: UiPath

Robotics Specialist, Assorted Projects (Rivervale, Village Hotels, HTB Hampshire Bank etc.)

Duration: Nov 2019 - June 2021

Summary: Designed and delivered complex RPA solutions including workflows and integrations.

Responsibilities: Design RPA solutions, create advanced automation workflows, custom scripts in UiPath, promote reusable components, integrate UiPath with various systems, ensure compliance and security standards, manage Orchestrator for scheduling and monitoring, diagnose and resolve issues.

Technologies: UiPath, UiPath Orchestrator

Senior Developer, 8 Projects for Client – CapitaLand, Singapore

Duration: June 2021 - April 2023

Summary: Managed and optimized multiple RPA projects and automations.

Responsibilities: Collaborate with analysts, assess and improve business processes for automation, create detailed designs with workflows and logic, develop and test UiPath automation scripts, handle exceptions, deploy bots, maintain documentation, optimize bot

2

performance, integrate RPA solutions, ensure compliance and security, error handling, support, lead planning, guide developers, use MS Power Automate.

Technologies: UiPath, MS Power Automate, MS Azure

Production Analyst, Mortgage Auto Receipts for client – Barclays Bank

Duration: April 2023 – Nov 2023

Summary: Managed bank transactions and reconciliation processes.

Responsibilities: Manage bank transactions and reconciliations using Mainframe and FIS Bank, optimize workflows, maintain data integrity, address transaction issues, implement quality controls, support audit compliance.

Technologies: Mainframe, FIS Bank

Senior QA Engineer, Car Leasing Process – Santander, American Bank | Invoice Reconciliation – Vibrant Nissan Automobile

Duration: Nov 2023 – May 2024

Summary: Enhanced QA processes, performed tests, and ensured product compliance.

Responsibilities: Develop and execute test plans, create reusable test cases, manual and automated testing, defect tracking, maintain and integrate automated test scripts into CI/CD, performance tests, collaborate with cross-functional teams, mentor junior QA engineers, quality control measures.

Technologies: Testing Tools, CI/CD Pipelines, JIRA, ServiceNow

Senior Engineer, Cash Application Processing – Global Furniture Group, America | EQB RAISE Mortgage Application – Equitable Bank, Canada

Duration: May 2024 (Ongoing)

Summary: Led full RPA project lifecycle from design to deployment in various domains.

Responsibilities: Design, develop, optimize UiPath automations, ensure seamless integration with external systems, lead RPA project lifecycle, mentor junior developers, troubleshoot and maintain bots, ensure adherence to best practices.

Technologies: UiPath, MS Power Automate, ServiceNow, SharePoint, MS Active Directory

Freelancing, NHS Medical Receipt Document Processing

Duration: Aug 2020 – Aug 2021

Summary: Freelance project on NHS medical receipt document processing using RPA.

Responsibilities: Medical Invoice Processing with UiPath Document Understanding, validate handwritten forms, correct data, enter into SystmOne, flag incomplete documents in Action Center.

Technologies: UiPath Document Understanding, Action Center, SystmOne

EDUCATION

- **MCA**
- Master of Computer Applications from Uttar Pradesh Technical University
