

Sophia Bennet

Expert Web Developer

SUMMARY

Designed and optimized modern websites and sales landing pages that improve user experience, mobile responsiveness, and business conversions. Delivered responsive front-end solutions, enhanced website performance, and implemented SEO best practices to help businesses strengthen their online presence. Experienced in web development, website optimization, and creating scalable websites that meet both client and user needs.

TECHNICAL SKILLS

Main Technical Skills	website, Website optimizations, Sales Landing Page, Web Development, Front-End Web Development
-----------------------	--

I design and develop modern, responsive websites and high-converting landing pages for startups, entrepreneurs, and small businesses. My expertise includes website development, website optimization, front-end development, responsive design, UI improvements, and conversion-focused landing pages. I have experience building business websites, redesigning outdated websites, improving website performance, optimizing SEO, and integrating essential business tools. I am committed to delivering clean, scalable, and user-friendly solutions that help businesses establish a strong online presence.
