<b>Version Control</b>	Git, Gitflow
<b>Collaboration, Task &amp; Issue Tracking</b>	Jira
<b>Web/App Servers, Middleware</b>	PWA
<b>SDK / API and Integrations</b>	RESTful API
<b>Other Technical Skills</b>	Cross-browser Compatibility, databases, Responsive UI, Version Control

## EXPERIENCE

### React developer - Tradelink, Crypto project

12.2020 – 02.2022

**Responsibility:** Apply optimal architectural solutions and coding principles, create reusable components, add new features, refactor, fix bugs, markup, understand how crypto works in general, write optimized code.

**Team:** 1 frontend(s), 1 full-stack, 2 backends (one of them is tech lead), software, PM, tester, designer.

**Technologies:** JavaScript, HTML, CSS, React, TypeScript, Redux, BEM, Web Development, Crossbrowser coding

### React developer, AOD.space, CRM, e-commerce

08.2020 – 12.2020

**Responsibility:** Apply optimal architectural solutions and coding principles, create reusable components, add new features, refactor, fix bugs, markup, understand how crypto works in general, write optimized code.

**Team:** Each project had 1 front, 1 back, 1 PM, 1 tester

**Technologies:** JavaScript, CSS, HTML, React, Redux, TypeScript

### React/React-Native/Node.js developer - Innosoft

11.2017 – 08.2020

**Description:** Here I have worked with React, React-Native, and also with Node.js, the company was a startup, where I have worked on multiple projects, the first project was "Concierge Mobile" in this project I have worked in the admin panel which is written with React.js used also Redux and Redux-thunk, the project had over 2000 users, the second big project was 'TestIT' which is a platform where the client can add his product, and also there are QAs for testing the product and based on in which criteria bug is related (f.e. UI/UX issue, security and so on..) the QA will get some fee. In this company also I have done some other projects, about which I will tell later.

**Technologies:** HTML, CSS, React, Redux, React Native, Node.js

### React native developer, Aparg

01.2017 – 09.2017

**Description:** Here I have worked on a traveling application whose name is "EasyTraveling", I worked on the mobile side with React-Native, the application was released but now is not available, it's in updating stage now.

**Technologies:** React, React, Native, HTML, CSS
