Muhammad Haroon Rasheed
Intern Student

SUMMARY

Software engineer leveraging robust academic foundation in Computer Science with hands-on experience in Flask, Python, and Django to build scalable web applications. Proven track record in deploying high-traffic websites leveraging advanced Django framework. Strong comprehension of software development life cycle principles, ready to contribute to cutting-edge technology projects.

TECHNICAL SKILLS

Main Technical Skills	Flask, Python, Django REST framework
Programming Languages	Python
AI & Machine Learning	AI, Machine Learning
Python Frameworks	Django, Django REST framework, Flask
SDK / API and Integrations	RESTful API
Other Technical Skills	ChatBot

WORK EXPERIENCE

- **CodSoft**
  Completed a virtual internship focused on web development. Gained experience in
  building and deploying web applications.
- **Fiverr | Freelance**
  Developed and maintained web applications using Django,Python, and other technologies.

EDUCATION

- **COMSATS Institute Information Technology Abbottabad**
  Bachelor's degree, Computer Science
  4 years

CERTIFICATION

- **Advanced Django Project: Build High-Traffic Websites with Django**
- **AI Sentiment Analysis with PyTorch and Hugging Face Transformers**
- **Advanced NLP with Python for Machine Learning**
- **Building RESTful Web APIs with Django**
- **Building a Personalized Chatbot with OpenAI and LangChain**
- **Securing Django Applications**

PROJECTS

- **E-Learning Platform**
- **Learning Path Generator & Platform**
- **ImageWatermarking**
- **PDF Compressor Web Application**
