EXPERIENCE

React Developer

03/2021 - Present
Description: The company provides IT Services and IT Consulting
Responsibilities:

- Developing new features and components
- Developing SPA using React and Redux, TypeScript, Mobx
- Collaborating with designers to improve design and make it responsive
- Leveraging responsive web frameworks to complete deliverables ahead of schedule
- Working in Agile Environment

Front End Developer

11/2019 - 03/2021

Description: A fast-growing software and game developing company that provides the highest standards of digital delivery for any business in the world.
Responsibilities: I have gained a huge experience with JavaScript, learned new technologies, like React, Redux, MobX, Saga, TypeScript. Gained a good experience working with team, on real projects.

PROJECTS

Online supermarket for a European country (Project under NDA)

Description: There were many forms on the admin panel, and it was easy to tune a web-site from it. The supermarket had daily online-about 400,000 people, that is, all sorts of improvements were immediately displayed after the review from the real people.
Technologies: React, Axios, Redux, Next.js, TypeScript, React-final-form, CSS in JS

CLOUD PROJECT (Project under NDA)

Description: It was a cloud for which we wrote the web version, the problem was that the back end was not very optimized and the customer did not want to change it, so we implemented a gateway on the backend to optimize the data that came from the backend.
Technologies: React, Apollo, TypeScript, GraphQL, Formik, Material-UI

EDUCATION

YEREVAN STATE UNIVERSITY, Bachelor's Degree Faculty of Mathematics and Physics
2019
