

Mohsin T.

Senior Qlik/Tableau Engineer

SUMMARY

- 5 years of experience in developing and maintaining complex Tableau dashboards and reports using multiple data sources for diverse industries - 2 years of experience with Qlik; led the design and development of interactive dashboards using Qlik Sense, Power BI, and Tableau; designed and implemented data models in Qlik Sense, facilitating data discovery and exploration. - Upper-Intermediate English

TECHNICAL SKILLS

Main Technical Skills	Tableau (5 yr.), Qlik Sense (2 yr.)
Programming Languages	Python
AI & Machine Learning	Deep Learning, Natural Language Processing
Data Analysis and Visualization Technologies	ETL, Looker Studio, Power BI, Qlik Sense (2 yr.), Tableau (5 yr.)
Databases & Management Systems / ORM	SQL
Third Party Tools / IDEs / SDK / Services	Excel

EXPERIENCE

Senior Qlik/Tableau Developer, ArcX DataWorks

2022-07 - 2023-04

Responsibilities:

- Designed and implemented data models in Qlik Sense to facilitate data discovery and exploration.
- Developed interactive dashboards with advanced data visualization techniques, such as set analysis and time-based calculations, enabling users to identify trends and uncover hidden patterns in the data.
- Leveraged Qlik Sense and Tableau to visualize complex financial data and create interactive reports and scorecards for finance and executive teams.
- Built dynamic reports with drill-down capabilities to provide granular insights into financial performance and budget analysis.

BI Developer, ANROWS

2022-09 - Current

Responsibilities:

- Led the design and development of interactive dashboards using Power BI, Tableau, and Qlik Sense, enabling real-time data analysis and visualization.
- Built and maintained robust data sources in Qlik Sense, ensuring data accuracy and availability for business users.
- Collaborated with cross-functional teams to gather requirements, exchange ideas, and deliver actionable insights using Tableau and Qlik Sense's powerful capabilities.
- Implemented business intelligence solutions to increase operational efficiency.

BI Consultant, Benitago

2022-05 - Current

Responsibilities:

- Collaborated with the ETL team to ensure accurate and accessible data sources, resulting in improved data analysis capabilities.
- Created dynamic dashboards using Tableau Desktop, enabling efficient visualization and reporting of key metrics.
- Developed and optimized Oracle SQL queries within Tableau, enhancing data calculations and insights generation.
- Collaborated with stakeholders to understand their requirements and translated them into interactive filters, parameters, and calculations for intuitive dashboards.
-

BI Consultant, Business Platform

2019-09 - Current

Responsibilities:

- Work with clients across various industries to identify business needs and analyze data to develop insights and recommendations.
- Collaborate with cross-functional teams to define requirements and develop business solutions using tools like Tableau, Power BI, and Excel.
- Conduct market research and competitive analysis to inform business strategies and decisions.
- Develop and maintain project plans, timelines, and budgets to ensure timely delivery of high-quality work.

BI Developer, AIIR Consulting

2018-09 - Current

Responsibilities:

- Developed and maintained the company's BI infrastructure, including the design and implementation of ETL processes, database schema, and dashboards/reports.

- Worked closely with business and IT teams to understand requirements and translate them into technical specifications for BI solutions.
- Developed and optimized SQL queries, stored procedures, and functions for data extraction, transformation, and analysis.
- Created and maintained data visualizations using tools such as Power BI, Tableau, and Excel, ensuring the accuracy and timeliness of data.
- Conducted ad-hoc analysis and data mining to support strategic decision-making and improve business performance.
- Trained end-users on how to use BI tools to access and analyze data, and provided technical support as needed.

EDUCATION

Master of Science: Data Science NUCES - FAST - Islamabad, Pakistan

My Area of study were deep learning and GANs
2020-01 - 2022-09

Bachelor of Science: Software, Engineering Foundation University - Rawalpindi

My area of study were NLP and AI
2014-09 - 2018-09

CERTIFICATIONS

Python and Data Science | Dice Analytics

2018-09

Tableau 10 A-Z: Hands-on Tableau Training | Udemy

2019-01

AI for Everyone | Coursera

2019-09

Introduction to Programming using Python |Microsoft

2020-04
