Urvi D.
Senior Senior React Native Engineer

SUMMARY

- React Native developer with excellent Frontend skills, she has 4 years of experience. - Intermediate English - Available ASAP

TECHNICAL SKILLS

Main Technical Skills	React Native
Programming Languages	JavaScript
Android Libraries and Tools	Android Studio
JavaScript Libraries and Tools	React Native
Databases & Management Systems / ORM	Realm, SQLite
Methodologies, Paradigms and Patterns	Agile
Third Party Tools / IDEs / SDK / Services	Android Studio, XCode
Version Control	Git

PROJECTS

MatchPlayHub

Description: MatchPlayHub community orientated team, committed to building connections between people. We value your personal information and the information that is exchanged between users and make it a chief priority to protect that information. Share information about other people (for example, if you use the contact details of a friend for a given feature), we process this information on your behalf in order to complete your request. We also process your chats with other users as well as the content you publish, as necessary for the operation of the services. Also, you can share additional information, such as details on your personality, lifestyle, interests and other details about you, as well as content such as photos, the sports you love, and what level you practice at. To add certain content, like pictures, you may allow us to access your camera or photo album.
Developer's contribution: Requirement Analysis Design and develop the application. Discuss with the Graphics Designing Team for the application.
Technology: React Native (RN version: 0.66.4), JavaScript
