

Ionut Lucian Eremia

Junior Project Manager | Customer Support Expert

SUMMARY

Ionut Lucian Eremia is a junior project manager. He has a Bachelor's Degree in Law from the University of Bucharest. With over 4 years of work experience, Ionut has developed a range of technical skills and expertise. Key Technical Skills: 1. Proficient in project planning and risk management. 2. Skilled in people management and team leadership. 3. Experienced in product management and game design. 4. Familiar with ServiceNow and direct sales processes. 5. Strong problem-solving abilities. 6. Knowledgeable in sales consulting and sales processes. 7. Well-versed in software development practices and methodologies. Ionut has demonstrated his technical expertise through his work as a project manager in a mobile gaming development team. He has also co-founded Ions Options, a company that provides customer support services for startups and small companies. In his previous role as a customer support team lead at Playtika, Ionut oversaw all support operations for Playtika's casual games engine - Jelly Button. Notable games he worked on include Merge Stories and Dice Life. Ionut's strong engineering background and technical skills make him a standout candidate for software engineering positions. His experience in project management, game design, and customer support adds value to any team he joins.
