Sudarshan Jagdale
Junior SAP B1 Jr Technical consultant

SUMMARY

The engineer has a proven track record as a Junior Technical Consultant in SAP B1 at Edel Tech, adept in crafting complex reports, layouts, and SQL queries for enterprise applications. Garnering a commendable 81.21% in BCA from Solapur University, the candidate boasts strong programming proficiency in HTML, CSS, JavaScript, Java, and Python, and is well-versed in database management with SQL and HANA. The engineer has demonstrated skills in various tools and technologies such as HANA, SSMS, VS Code, and Eclipse, with a solid foundation in unit testing and agile development methodologies. Through leading projects like a Vehicle Rental System and a Hotel Management System, the candidate effectively combined web development and backend process optimization. This software engineer's adaptability, problem-solving skills, and technical expertise make them a valuable asset poised for contributing to the success of a future employer.
