

# Eugene L

## Senior Front End/Blockchain Engineer

Front-End Web

### Profile

- 4+ years of experience as a Front-End Engineer.
- Experience with Solidity, Vue3, Quasar.
- Solid skills with React and its libraries.
- Worked with AWS and would not mind switching to Cloud Run, GCP services.
- Experience with Supabase (using PostgreSQL instead of MongoDB).
- Familiar with Firestore.
- Now he has interested in functional programming, methods, test-driven development, and web components. The experience includes working together in a team environment to build high-performing websites.
- Upper-Intermediate English.
- Available ASAP.
