EDUCATION

Shopify Front-end Developer, Electronics store

2022-2023
Description: This project released new products and I was involved in creating new pages with characteristics and comparison of these products. Also, a special PDP page was written for these products. I was responsible for improving accessibility metrics using the Axe

DevTools extension.
Responsibilities:

- Shopify front-end maintenance.
- Shopify section creation.
- Accessibility.

Technologies: HTML, SCSS, JS(ES6), NPM, Liquid, Shopify CLI, Shopify API, Gulp.js, Axe DevTools

Shopify Front-end Developer, Vegan & cruelty-free products shop

2022
Description: In this project I was involved in the redesign of the existing PDP page, slightly modifying PLP. Also, I was working on Shopify script (ruby) experience, where I had to divide users into different groups that would have different capabilities. Responsible for Klaviyo forms integration and changing Klaviyo form styles to follow the general UI of the site. I was working on improving accessibility metrics using the Google Lighthouse tool.
Responsibilities:

- Promotions creation.
- Shopify section creation.
- Klaviyo integration.
- Accessibility.

Technologies: HTML, SCSS, JS(ES6), Jquery, NPM, Liquid, Shopify CLI, Shopify API, Gulp.js, Shopify script (ruby) experience, Klaviyo

Shopify Front-end Developer, Essential oils shop

2022
Description: During this project, I was involved in redesigning the Cart page, header and footer of this site. I also worked on fixing major bugs. This project is really interesting in that it is completely rewritten on Vue.js. All snippets and sections are written on Vue.js and recompiled using Webpack. Also, I was involved in writing reliable Unit tests for Vue.js components.
Responsibilities:

- Theme development.
- Pagespeed optimization.
- Shopify section creation.
- Shopify front-end maintenance.
- Unit tests writing.

Technologies: Vue.js, HTML, SCSS, JS(ES6), Jquery, NPM, Liquid, Shopify CLI, Shopify API, Webpack, Vue test utils

Shopify Front-end Developer, Digital store

2022
Description: I was working on redesigning the homepage for a digital store. Also PDP and implementing a custom checkout and Contact us page.
Responsibilities:

- Theme development.
- Shopify section creation.
- Shopify front-end maintenance.

Technologies: HTML, CSS3, JS(ES6), Jquery, NPM, Liquid, Theme kit, Shopify API, GraphQL

Shopify Front-end Developer, Cosmetics store

2022
Description: I was working on the Marketplace project for a US-based company. During this project, I was involved in redesigning existing PDPs, correcting stylization, and redesigning existing PLPs. I also worked with Node.js making requests to the GraphQL API to interact with the used API.

Responsibilities:

- Theme development
- Node.JS maintenance
- Shopify front-end maintenance
- Accessibility

Technologies: Node.JS, HTML, CSS3, JS(ES6), Jquery, NPM, Liquid, Theme kit, Gulp.js, Firebase

Shopify Front-end Developer, Clothing store

2021
Description: I was involved in redesigning existing PLPs and migrating them to the Shopify sections. Also I was working on adding extra information via Metafield to give client more opportunities to change product info from the admin panel and creating custom blog page.
Responsibilities:

- Theme development.
- Shopify front-end maintenance.
- Accessibility

Technologies: HTML, CSS3, JS(ES6), Jquery, NPM, Liquid, Theme kit, Gulp.js

Bigcommerce Front-end Developer, Shaving accessories shop

2021
Description: In this project, I was involved in redesigning some frontend parts and migrating the Homepage to native Bigcommerce page builder.
Responsibilities:

- Theme development.
- Pagebuilder widgets creation.
- Bigcommerce front-end maintenance.

Technologies: HTML, SCSS, JS(ES6), Jquery, NPM, Stencil CLI, Handlebars.js, Webpack, Grunt.js/Gulp.js, Bigcommerce API, GraphQL

Shopify Front-end Developer, Beauty shop

2019-2020
Description: During this project for a beauty industry shop I was involved in redesigning a few frontend parts, create custom landing page and fully redesign PLP
Responsibilities:

- Theme development.

- Shopify front-end maintenance.
- Accessibility

Technologies: HTML, CSS3, JS(ES6), Jquery, NPM, Liquid, Theme kit, Gulp.js, Shopify API
