

Andrii B.

Middle Senior AQA Engineer

SUMMARY

- QA Engineer with over 5 years of experience in software testing and quality assurance. - Proficient in creating test documentation such as Test Plans, Test Cases, Mind Maps, and Test Reports. - Skilled in both manual and automated testing, with experience in API testing and security testing for web services. - Strong technical background with expertise in languages such as JS, C#, TypeScript, and JavaScript. - Familiar with Agile and Scrum methodologies, and experienced in using testing tools like jMeter, Selenium, NUnit, and Jenkins. - Demonstrated leadership and management skills, with a track record of meeting strict deadlines and problem-solving. - Winner of the Wix QA Hackathon in July 2017, showcasing a commitment to excellence and delivering high-quality results. - Work Experience with German/Austrian clients - Upper-Intermediate English

TECHNICAL SKILLS

Programming Languages	C#, JavaScript, TypeScript
Methodologies, Paradigms and Patterns	Agile, Scrum
QA, Test Automation, Security	API testing, Automated testing, Charles Proxy, Fiddler, Functional Testing, JMeter, JUnit, NUnit, Postman, Protractor, Selenium, Test design, UI/UX testing, WebDriverIO, Xray
SDK / API and Integrations	API testing, Insomnia, Swagger
Deployment, CI/CD & Administration	Jenkins
Third Party Tools / IDEs / SDK / Services	Visual Studio
Other Technical Skills	Mind Mapping, Requirement Analysis, SeleniumGrid, Xamarin Studio, Xamarin UI Test

WORK EXPERIENCE

QA Engineer, Lotto Sheli

Duration: January 2020 - August 2023

Summary: Client-server user activity monitoring product with functions of security from exploits, blocking of dll injections and network connections.

Responsibilities: Manual Testing (functional/ non-functional), Automation (web and mobile on typescript, webdriver io and puppetee, for API tests use AVA framework), Test

documentation creation and maintenance, Testing web, mobile and ios versions.

Technologies: TypeScript, WebDriverIO, Puppeteer, AVA framework

QA Engineer, Webuy

Duration: September 2018 - January 2020

Summary: Client-server user activity monitoring product with functions of security from exploits, blocking of dll injections and network connections.

Responsibilities: Manual Testing (functional/ non-functional), Automation (writing autotests on Web and Mobile Web, using Java and appium), Test documentation creation and maintenance, Was engaged in testing Android / iOS app on ReactNative, Maintaining CI (Circle CI), Requirement analysis and testing.

Technologies: Java, Appium, ReactNative, Circle CI

QA Lead, 123Software

Duration: January 2017 - September 2018

Summary: Client-server user activity monitoring product with functions of security from exploits, blocking of dll injections and network connections.

Responsibilities: Manual Testing (functional/ non-functional), Automation (writing autotests, Xamarin Cloud testing), Maintaining CI (TeamCity), Test documentation (Test Plan, Test Cases, Mind Maps, Test Summary Report), Requirement analysis and testing.

Technologies: Xamarin, TeamCity

EDUCATION

- **National Mining University of Ukraine**

Master thesis: Geological Prospecting. Geoinformation Systems.
2014 – 2018
