Atharv Kachare
Intern Full-Stack Developer

SUMMARY

Full-Stack Engineer with hands-on experience in Django, Python, and MySQL, showcasing strong backend API design with performance optimization, validated by a 30% query speed improvement in past projects. Expertise in frontend development using React.js, demonstrated through enhancing user interfaces and load times for high-traffic applications. Holds top 5% ranking in Java on HackerRank, underpinned by a B.Tech in AI & Data Science, and a Computer Science diploma, ensuring a solid theoretical foundation. Recognized for technical prowess with certifications in AWS Cloud and 5★ Java proficiency. Proven track record in agile development, clean architecture, and real-world problem-solving with a passion for quality and efficiency.

TECHNICAL SKILLS

Main Technical Skills	Python (3 yr.), Django REST framework (1 yr.), Java (3 yr.), React (1 yr.), Ext JS (1 yr.)
Programming Languages	Java (3 yr.), Python (3 yr.)
C++ Libraries and Tools	C/C++/C#
Mobile Frameworks and Libraries	Crashlytics
Python Frameworks	Django REST framework (1 yr.)
JavaScript Frameworks	Ext JS (1 yr.), React (1 yr.)
.NET Platform	Identity Server
UI Frameworks, Libraries, and Browsers	Tailwind CSS
Version Control	Git
Third Party Tools / IDEs / SDK / Services	Microsoft Visual Studio Code
Methodologies, Paradigms and Patterns	OOP
QA, Test Automation, Security	Postman

Operating Systems	Unix
Mail / Network Protocols / Data transfer	Zimbra
Other Technical Skills	ACF

WORK EXPERIENCE

Full-Stack Developer, Portfolio Website

Duration: April 2025 - May 2025

Summary: Developed a fully responsive personal portfolio to showcase projects and skills.

Responsibilities: Developed the portfolio website, integrated a real-time contact form, added UX and SEO enhancements.

Technologies: HTML, CSS, ReactJS, NextJS

Full-Stack Developer, Task Management API

Duration: 2025

Summary: Designed and implemented secure REST APIs for task management including creation, scheduling, and role-based permissions.

Responsibilities: Designed and developed task management APIs, optimized MySQL queries, integrated JWT authentication.

Technologies: Django, Django REST Framework, MySQL, JWT Auth

Developer, Pacman Game

Duration: May 2022 - June 2022

Summary: Implemented a Pacman-style game adhering to OOP principles with advanced pathfinding algorithms for ghost AI.

Responsibilities: Developed the game, implemented ghost movement and collision detection, integrated AI enhancements.

Technologies: Java, Advanced Java

EDUCATION

- **B.Tech in AI & Data Science**
- Annasaheb Dange College of Engineering & Technology
- 2022-2025
- **Diploma in Computer Science**
- Latthe Polytechnic, Sangli, Maharashtra
- 2019-2022

CERTIFICATION

- **Flipkart Grid 6.0**

- Solved real-world product challenges
- **Data Analytics**
- Deloitte
- **5★ Java**
- HackerRank
- **SQL Certified**
- HackerRank
- **Web-Development**
- Internshala
- **Java**
- Internshala
- **AWS Certified Cloud Practitioner**
- Amazon Web Services (AWS)
