

Agah Enoch Wesoamo

Middle BACKEND DEVELOPER

SUMMARY

Backend developer with 1 year of experience specializing in Node.js, TypeScript, and database management using PostgreSQL and MongoDB. Proven expertise in building REST APIs and executing performance optimization. Demonstrated flexibility by learning new technologies, Python (Django) and React, to deliver key projects. Proficient in Git, Redis caching, and Winston logging. Currently pursuing a bachelor's degree in Information Technology, with a solid foundation in software engineering principles and practices. Seeking a backend role to apply strong problem-solving skills and full-stack integration expertise.

TECHNICAL SKILLS

Main Technical Skills	Node.js (1 yr.), TypeScript (1 yr.), RESTful API (1 yr.), Optimism, PostgreSQL (1 yr.)
Programming Languages	Python, TypeScript (1 yr.)
JavaScript Frameworks	Node.js (1 yr.), React
JavaScript Libraries and Tools	Winston
Databases & Management Systems / ORM	PostgreSQL (1 yr.)
Version Control	Git
Blockchain and Decentralized Software	Optimism
SDK / API and Integrations	RESTful API (1 yr.)

WORK EXPERIENCE

Freelance Full-Stack Developer, Full-stack Inventory and Operations Platform

DURATION: DEC 2024 - PRESENT

SUMMARY: ENGINEERED AND DEPLOYED A CUSTOM, FULL-STACK INVENTORY AND OPERATIONS PLATFORM THAT TRANSITIONED A CLIENT FROM MANUAL TO DIGITAL REAL-TIME RECORD-KEEPING.

RESPONSIBILITIES: ADOPTED NEW TECHNOLOGIES TO BUILD A SCALABLE SYSTEM, IMPLEMENTED POSTGRESQL/API MODELS, INTEGRATED PERFORMANCE OPTIMIZATION AND LOGGING TOOLS.

TECHNOLOGIES: PYTHON (DJANGO), REACT, POSTGRESQL, REDIS, WINSTON

EDUCATION

- **Bachelor's Degree in Information Technology**
Expected Graduation: 2027
4 years
