EXPERIENCE

Salesforce Developer, PRL Bank

January 2021 – December 2021

Salesforce Developer, Argent Real Estate

June 2020 – December 2020

QA Engineer, GMI Bank

August 2019 – March 2020

PROJECTS

Developer, PRL Bank

Jan 2021 – Present

Description: PRL Bank is an American multinational financial services company and have offices

throughout the United States and internationally In Salesforce, We are building a Fixed Deposit application for PRL Bank to process their fixed deposit applications. In Fixed Deposit, customer deposits their money in bank for specific duration and they will get guaranteed interest on deposited money. In Fixed Deposit application, a customer can have multiple deposits. I worked here on areas like Configuration, Automation, Security, Triggers, Apex classes, Aura and LWC components.

Responsibilities:

- Worked from Sprint1 so did app set, object and field set up, sharing settings set up, and profiles setup etc.
- Worked on Process builder, Approval Process, flows, HTML templates, push notification and other configuration.
- Written secure apex classes, triggers, Test classes.
- Created Lightning Web components and one quick action using aura components.
- Setup Data model and Security access model.
- Defect fixes and deployments.
- Unit Testing

Salesforce Developer, Argent Real Estate

June 2020 – December 2020

Description: This project is based on sales cloud. Argent is having a lot of Centers and Spaces across the country and they rented their spaces to the customers. We are building this application to manage their customer and manage the new opportunities, Contract and payment. We also set up the case management so customer can raise the case in case of any issue. We started on it from scratch and deployed final product into production successfully. I worked here on all the areas like Configuration, Automation, Security, Triggers, Apex classes.

Responsibilities:

- Worked from Sprint1 so did app set, object and field set up, sharing settings set up, and profiles setup etc.
- Worked on Process builder, Approval Process, HTML templates, push notification and other configuration.
- Written secure apex classes, triggers, Test classes.
- Setup Data model and Security access model.
