

Maksim P. Salesforce Engineer

Salesforce

Profile

- With over 15 years of experience in IT, I am a 4X Salesforce Certified professional who is passionate about helping small and medium businesses leverage the power of Salesforce to achieve their goals. I currently work as a Salesforce Administrator and Salesforce Declarative Developer at Anyity, a Salesforce ISV partner that provides Salesforce solutions for various industries and sectors.
- At Anyity, I am responsible for managing the Salesforce production org and sandboxes, modifying reports, dashboards, and list views, maintaining data integrity and security, configuring data integration and automation using Flow, Approval processes etc., developing and implementing custom applications, objects and fields. I also have experience in Salesforce Lightning, Sales & Service Cloud, and DevOps center, as well as Agile methodology skills. I am always eager to learn new technologies and best practices, and I am an active member of the Salesforce Trailhead community, where I have achieved the Double Star Ranger rank and multiple Superbadges.
- Upper-Intermediate English
