WORK EXPERIENCE

Scrum Master / Business Analyst, Social Network

Duration: 08.2022 – Present
Summary:

- The aim was to deliver a mobile application in the lifestyle domain that provides a community created around it
- A Mobile App was implemented to unite people
- The Social Network contains all the functionality inherent in all modern social networks, such as publications, chat, stories, and check-ins
- Key features allow users to create events and challenges, display them on the map, and participate in them
- For all actions in the Social Network, users get internal tokens that are connected with XLM tokens
- Also, the App is for business representatives who want an effective means of communication with their customers and an effective marketing instrument
- Business representatives can get a Partner account, create publications, events, and challenges for users, and promote the business brand
- The mobile App is native to iOS and Android

Responsibilities: Scrum Master / Business Analyst
Technologies: Trello, Figma, Google Docs, iOS, Android, PHP, Stellar

Business Analyst, ERP SYSTEM

Duration: 08.2021 – 08.2022
Summary: Our team developed an ERP system from scratch aimed at automating the internal activities of a software development company using a micro-service architecture with modules aimed at human resource management, project and candidate management, workspace management, time tracking, and financial analysis.
