

# Yunus T.

## Middle Robotic Process Automation Developer

### SUMMARY

- Skilled Robotic Process Automation Developer and Team Lead with extensive experience in strategizing and implementing RPA solutions across various financial sectors - An engineer with a solid track record of innovation and expertise in both RPA development and data science roles. - Expertise includes developing over 30 User Access Management applications using Blue Prism and UiPath, revamping nostro vostro reconciliation for over 100 accounts, and automating treasury processes. - Proven ability to create reusable automation components and integrate REST APIs, reducing development time by 25%. - Proficient in programming languages such as Python, SQL, and a suite of Microsoft Power Platforms tools. - Advanced English level

### TECHNICAL SKILLS

<b>Main Technical Skills</b>	RPA, Blue Prism, UiPath
<b>Programming Languages</b>	JavaScript, Python
<b>Python Frameworks</b>	Django
<b>Data Analysis and Visualization Technologies</b>	ABBYY Vantage, Celonis, Power BI, UiPath
<b>Databases &amp; Management Systems / ORM</b>	SQL
<b>UI Frameworks, Libraries, and Browsers</b>	CSS, HTML5
<b>Platforms</b>	Automation Anywhere, Microsoft Power Platform, Power Automate, RPA, UiPath
<b>Third Party Tools / IDEs / SDK / Services</b>	ClickUp, Power Apps
<b>Version Control</b>	Git
<b>Collaboration, Task &amp; Issue Tracking</b>	Miro
<b>SDK / API and Integrations</b>	RESTful API
<b>UiPath</b>	UiPath
<b>Other Technical Skills</b>	Data Science, Microsoft 365 tools, Power Virtual Agents

## WORK EXPERIENCE

### Power Platform Developer, Microsoft Power-Up Program

08/2023 – 12/2023

#### Responsibilities:

- Spearheaded the development, deployment, and support of Microsoft Power Platform custom applications, like inventory management systems leveraging key components like Power Apps, Power Automate, Power BI, Microsoft 365 tools, and Power Virtual Agents.

### Robotic Process Automation (RPA) Developer – Team Lead, Wema Bank Plc

07/2022 – 11/2023

#### Responsibilities:

- Spearheaded the strategic implementation of surface automation using Blue Prism and UiPath to develop more than 30 user access management (UAM) applications. This resulted in a significant 70% boost in productivity with the information security team, improving access controls and mitigating security vulnerabilities.
- Revamped nostro vostro reconciliation across 100+ accounts, streamlining processes and implementing automated tools; achieved a remarkable 50% surge in productivity nationwide, saving 200+ work hours per month.
- Orchestrated the automation of the bank's treasury process, reconciling bonds and treasury bills valued at billions of naira by strategically using Blue Prism; yielding an outstanding 60% surge in reconciled accounts while collaborating closely with the trade service team.
- Pioneered identifying and creating reusable automation components, libraries, templates, workflows, and seamlessly integrated REST API, leading to a remarkable 25% reduction in robot development time.

### Robotic Process Automation Intern (Remote), Aggrandia

05/2022 – 12/2022

#### Responsibilities:

- Innovated an invoice creation/reminder bot leveraging the Robotic Enterprise Framework (REFramework) in UiPath. Reduced manual invoicing time by 60%, streamlining the process and enhancing accuracy.

- Led the end-to-end design, testing, and documentation of automation workflows in UiPath, optimizing operational efficiency by 40% and ensuring seamless workflow integration.

## **Robotic Process Automation (RPA) Developer, Polaris Bank Limited**

05/2021 – 06/2022

### **Responsibilities:**

- Implemented RPA solutions for various processes encompassing web scraping, excel manipulation, data entry, and migration. Successfully automated tasks, leading to a 40% reduction in processing time and enhancing overall productivity across diverse operations.
- Pioneered process optimization, analyzed potential automation opportunities, and contributed significantly to. Instrumental in reducing operational costs by 20% through process optimization and identifying automation potential resulting in a 30% efficiency boost in RPA business development initiatives.
- Led functional testing initiatives, and generated comprehensive solution design documents (SDD) while collaborating closely with the business team to document changes in the current practices and actively contributing to process re-engineering.
- Oversaw the Center of Excellence (CoE) to maintain and improve developed solutions, providing strategic guidance and mentorship to junior developers. Implemented new training programs resulting in a 20% increase in productivity among junior developers while ensuring the successful deployment of innovative solutions across departments.

## **Software Engineer Intern, Alabian Solutions Limited**

10/2018 – 05/2019

### **Responsibilities:**

- Collaborated with the assigned technical lead to analyze basic project requirements thoroughly, develop, debug, and test applications ensuring the seamless delivery of high-quality solutions.
- Played a pivotal role in a collaborative team, contributing significantly to the development of diverse projects, including an E-commerce app, Web Search Engine app, and Hotel listing website, aligning seamlessly with the directives of the supervisor.

## EDUCATION

- **MSc: Computer Science and Software Engineering Specialization – Artificial Intelligence & Cybersecurity**  
In view
- **B. Eng: Mechatronics Engineering**

## CERTIFICATION

- **Microsoft Azure Cloud Fundamentals**
- **Blue Prism Developer Course**
- **Microsoft Power Platform**
- **UiPath RPA Developer Course**
- **Automation Anywhere Foundation Course**
- **AWS Cloud Infrastructure**
