OLAJIRE OLUWAFEMI SAMUEL
Senior C# Fullstack Net Developer

SUMMARY

Software engineer with 8 years of experience, including specialization in React native, .Net development, and a strong background in the banking sector, HR, health, and biometric device integration. Proven track record in designing resilient cloud solutions with Microsoft Azure, and expertise in full SDLC, TDD, MVC, CQRS, and microservices architecture. Has developed scalable applications using C#, ASP.NET Core, React/React native, and Entity Framework, backed by a solid foundation in computer science with an MSc in Data Science and Business Analytics. Recognized for implementing efficient integrations with Central Bank systems and third-party APIs, enhancing financial technology ecosystems.

TECHNICAL SKILLS

Main Technical Skills	ASP.NET Core Framework (8 yr.), C/C++/C# (8 yr.), React Native (2 yr.)
JavaScript Frameworks	Angular (2 yr.)
.NET Platform	ASP.NET Core Framework (8 yr.)
C++ Libraries and Tools	C/C++/C# (8 yr.)
JavaScript Libraries and Tools	React Native (2 yr.)
Other Technical Skills	SQL/NoSQL

WORK EXPERIENCE

C# Fullstack Developer, Mobile App Development

Duration: Jun 2023 – Current

Summary: Developed a new mobile app using React Native, maintained web applications, integrated services with databases, and deployed apps using Azure functions and cloud capabilities.

Responsibilities: Full product cycle including design, development, testing, launch, training, bug fixes, and maintenance.

Technologies: React Native, ASP.NET Webform, JavaScript, Entity Framework, MVC, MS SQL Server, Azure, GitHub

Senior C# Fullstack .NET Developer, Banking Solutions Maintenance

Duration: March 2022 - April 2023

Summary: Maintained legacy projects, designed services for integration with the Central Bank of Nigeria, developed centralized bank APIs, and deployed microservices using Docker and Azure.

Responsibilities: Maintenance of legacy projects, microservice architecture design, automated deployment pipeline management.

Technologies: C#, ASP.NET Core, Azure, SSRS, Power BI, Docker

C# .NET Developer, Biometric Cloud Solution

Duration: Aug 2020 - Jan 2023

Summary: Designed a cloud solution for biometric device management and implemented the integraCloud solution using solid principles.

Responsibilities: Designing and implementing systems, relational databases, reporting environments, and managing software through the Agile methodology.

Technologies: C#, VB.NET, SQL, JavaScript, HTML, CSS, Azure, Trello, Jira, GitHub

Fullstack Developer, Attendance Management System

Duration: March 2018 - Jun 2020

Summary: Developed scalable applications with clean, maintainable code and integrated attendance management report systems for clients.

Responsibilities: Developing solutions using C# and ASP.NET MVC, and optimizing SQL server database queries and schemas.

Technologies: C#, ASP.NET MVC, PHP, ZKSoftware, SQL Server

Junior Fullstack Engineer, Desktop Edu Portal And Online Portal

Duration: November 2015 – End date: Jan 2018

Summary: Designed and implemented an educational portal for the school, maintained databases, and collaborated with a business analyst to implement new features.

Responsibilities: Design, implementation, and maintenance of educational portal and databases, code maintenance, team collaboration.

Technologies: C#, ASP.NET MVC, PHP

EDUCATION

- **MSc Data Science and Business Analytics**
- University of Plymouth, UK
- 2023-2024
- **Higher National Diploma in Computer Science**
- Federal Polytechnic, Ede, Osun State, Nigeria
- 2009-2015

CERTIFICATION

- **Microsoft 365 Business: Single Completion for SMEs**
- **Security in the Enterprise (Microsoft)**

- **Start-up for Development Learning Track**
- Certificate of Participation
