- Available ASAP

## TECHNICAL SKILLS

| Main Technical Skills | Flutter, Objective-C, iOS, Android |
|---|---|
| Programming Languages | Dart, Objective-C, Swift |
| Mobile Frameworks and Libraries | Flutter |
| Salesforce Ecosystem | Salesforce |
| Databases & Management Systems / ORM | Firebase |
| Platforms | Android, Firebase, Salesforce |
| Operating Systems | iOS |
| SDK / API and Integrations | RESTful API |
| Other Technical Skills | Bloc |

## EXPERIENCE

### Under NDA - Flutter Developer

Jun 2021 – Dec 2022
Develop of new modules and features for a huge medical project that serves the combined health information technology and clinical research industries using Bloc architecture and Salesforce CRM.

**Under NDA - Flutter Developer**

Feb 2021 – Jun 2021
Development of a mobile application from scratch for the inspection of real estate for iOS and Android platforms using Bloc architecture.

A mobile application was developed for two platforms in the Flutter framework: Android and IOS. Including the development of design, architecture, coding, and publication in the Play Market and App Store. The application belongs to the field of e-commerce and has a full
basket functionality with an intuitive interface. The project was implemented using the technologies of iCloud Functions, Firestore, Firebase Storage, Firebase Cloud Messaging, and other advanced technologies.

**Under NDA - Flutter Mobile Developer**

Feb 2020 – Sep 2020
Development of a mobile auction application from scratch for US lawyers with validation of their licenses for iOS and Android platforms using BLOC architecture.

The application was developed by me from scratch using Flutter framework and Bloc architecture for two platforms iOS and Android. The mobile application has a complex form of registration and
validation of licenses from the open API of the registry of lawyers. All lawyers who have been registered can participate in cases in all states of America for a certain fee. This app is like
UPWORK but only for verified lawyers.

**Under NDA - Mobile Developer**

Jun 2017 – Feb 2020
The complete development cycle of mobile applications for iOS in the Swift programming language, including the creation of a design in Sketch, the writing of code using the MVC and Clean Swift pattern, and the publication of the application in the AppStore. Moved on the cross-platform development on Flutter (Dart).

The application was created with localization in two languages. It contains audio tours for tourists as well as an offline map and routes with geolocation. The design was created in Sketch and
the following technologies were used:
Firebase, CoreData, geoJson, GPX, Mapbox… The Cyprus Guide was published in the AppStore

**Under NDA - IOS Developer**

Jan 2017 – Apr 2017
Development of mobile applications for iOS in the programming language Objective-C and Swift.

The application was developed by me from scratch using Flutter framework and Bloc architecture for two platforms iOS and Android. This mobile application is designed to inspect a property before selling it. This is a corporate application and is not available to everyone in the App Store and Play Market.

## ALSEN WATER TECHNOLOGIES - Sales Manager

2014-2016
Sales of water purification equipment.
