Denys B.
Senior React Native Developer

SUMMARY

- Experienced in React Native: Developed and delivered multiple React Native mobile applications, including a KenZen App and a Furniture Design Time-Tracking App, integrating Firebase, Redux, animations, and state management. Over 4.5 years of experience with React Native
- Full-Stack Development in Fintech: Led fintech real estate app development, handling both front-end (ReactJS, Styled-Components) and back-end (NodeJS, MongoDB) while managing CI/CD pipelines and real-time updates.
- Senior Developer in Web & Mobile Apps: Designed and implemented scalable mobile and web applications, ensuring high code quality, debugging, and managing releases on App Store and Play Market.
- Developed e-commerce web solutions using Vue and Vuex, collaborating with back-end and QA teams,
- Experienced in Docker, GitHub Actions, and Linux server management, optimizing deployment pipelines and application performance.
- Intermediate English

TECHNICAL SKILLS

Main Technical Skills	JavaScript (8 yr.), TypeScript (6 yr.), React (6 yr.), React Native (4 yr.), Node.js (4 yr.)
Programming Languages	JavaScript (8 yr.), TypeScript (6 yr.)
Mobile Frameworks and Libraries	Crashlytics
JavaScript Libraries and Tools	Expo, React Native (4 yr.), Redux, Redux-Saga, Redux Thunk, Styled components, Vuex, yup
JavaScript Frameworks	Node.js (4 yr.), React (6 yr.)
UI Frameworks, Libraries, and Browsers	Socket.io, Styled components
Databases & Management Systems / ORM	Firebase, MongoDB
Google Cloud Platform	Firebase Hosting
Virtualization, Containers and Orchestration	Docker, Storage

Platforms	Firebase
Version Control	GitHub, Github Actions
Operating Systems	Linux
Collaboration, Task & Issue Tracking	Notion
Mail / Network Protocols / Data transfer	SMTP, TLS
Other Technical Skills	Bcrypt

WORK EXPERIENCE

Senior Software Engineer, Fintech Real Estate Application

Duration: October 2021 - February 2025

Summary: Senior Software Engineer developing a fintech application for real estate joint ownership and renting.

Responsibilities: Developed application architecture, selected technology stack, implemented real-time updates, managed task board, developed front-end and back-end for main app and dashboard, created a Telegram bot, handled various administrative tasks (Google Services, hosting, domains, Linux Server, etc.), and established CI/CD pipeline with GitHub and Docker.

Technologies: Typescript, ReactJs, NodeJs, Styled-Components, Atlas MongoDB, Socket.IO, SMTP, Storage, bcrypt, GitHub, Docker

Senior Software Developer, Various Mobile and Web Applications

Duration: January 2019 - January 2022

Summary: Senior Software Developer working on robust and scalable mobile and web applications and microservices.

Responsibilities: Developed and delivered mobile applications using React Native, web applications using React, and microservices using NodeJs. Managed code quality through testing, debugging, code reviews, and team management.

Technologies: React Native, React, NodeJs, App Store, PlayMarket

Middle React Native Developer, KenZen Mobile Application

Duration: July 2019 - December 2019

Summary: Middle React Native Developer on KenZen mobile app development.

Responsibilities: Developed mobile application from scratch, implemented complex routing and iOS-like animations, and managed Firebase database and video streaming services.

Technologies: React Native, Firebase, Redux, Google Services

Middle Software Developer, The Kooples Online Store Department

Duration: April 2019 - July 2019

Summary: Middle Software Developer for the online store department domain of The Kooples distributor.

Responsibilities: Developed using Vue library, managed state with Vuex, led a Junior Developer, and collaborated with back-end and QA teams.

Technologies: Vue, Vuex

Middle React Native Developer, Furniture Design Time-Tracking App

Duration: August 2018 - April 2019

Summary: Middle React Native Developer creating an application for measuring time on furniture design tasks.

Responsibilities: Created an application using Expo library for hybrid platforms, managed Redux state, developed with Firebase, tested and deployed to app stores.

Technologies: React Native, Expo, Redux, Redux-Thunk, Firebase, App Store, Google Play Market

EDUCATION

Master's Degree in International Economics

Studied at Kyiv National Economics University

September 2006 - June 2011
