

Prankur Pandey

Middle Full Stack Developer

SUMMARY

- Full Stack Developer with 5+ years of experience building and scaling web & mobile applications using the MERN stack, React Native, and DevOps practices, including Docker, CI/CD, and AWS. - Adept at designing, developing, and deploying production-ready MVPs for various clients, with a record of 25+ successful product launches. - Proficient in React.js, such as employing advanced state management with Redux and React Context, and optimizing performance with best practices like lazy loading and code splitting. - Technical writer and educator with content reaching over 700K readers, contributing to freeCodeCamp and other tech platforms, enhancing knowledge sharing within the developer community. - Holds a BTech in Computer Science, providing a solid foundation in software engineering principles; experienced in collaborating with design teams to create fluid, responsive UI/UX for web applications. - Demonstrates a deep understanding of software development life cycle and modern development methodologies, as well as a knack for teaching coding and assisting clients with SEO and organic growth.

TECHNICAL SKILLS

Main Technical Skills	React Native (3 yr.), relational databases, Quadiant Inspire (5 yr.), React (3 yr.)
Programming Languages	JavaScript (3 yr.)
JavaScript Frameworks	Express, Ext JS, Node.js, React (3 yr.)
JavaScript Libraries and Tools	React Context, React Hooks, React Native (3 yr.), Redux
Databases & Management Systems / ORM	MongoDB, relational databases
UI Frameworks, Libraries, and Browsers	Chakra UI, CSS (3 yr.), HTML (3 yr.), Tailwind CSS
Cloud Platforms, Services & Computing	AWS
Industry Domain Experience	seo

Deployment, CI/CD & Administration	CI/CD, DevOps practices
Virtualization, Containers and Orchestration	Docker
SDK / API and Integrations	Fluid Framework
Platforms	Quadiant Inspire (5 yr.)
UI/UX/Wireframing	Responsive Design, UI/UX
Methodologies, Paradigms and Patterns	SOLID, State management
Project Management & Administration	Technical Writing
Other Technical Skills	MERN stack (MongoDB, Express, React, Node), Technical Writer

WORK EXPERIENCE

Freelance Technical Writer, Technical Articles

Duration: September 2024 - Present (1 year 2 months)

Summary: Authoring technical articles to share practical insights and experiences with the global tech community.

Responsibilities: Writing technical content for tutorials and handbooks, contributing to educational resources, and engaging with the open-source developer community.

Technologies: Writing, Education, Open-Source Contributions

Founder, MVP Development

Duration: July 2020 - Present (5 years 4 months)

Summary: Developing minimum viable products for clients across web, mobile, and desktop platforms.

Responsibilities: Designing, developing, and deploying production-ready apps; publishing technical content; aiding client SEO and growth; teaching coding.

Technologies: Web Apps, Mobile Apps, Desktop Apps, SaaS, DevOps, SEO

Software Engineer, Web Application Development

Duration: January 2020 - July 2020 (7 months)

Summary: Building scalable web applications with optimized performance and managing complete front-end development.

Responsibilities: Development of high-performance applications; leading front-end projects; implementing advanced state management; enhancing UI/UX.

Technologies: React JS, Redux, React Context, Next.js, Chakra UI, Tailwind CSS

Software Engineer, Responsive Web Interface Creation

Duration: June 2019 - December 2019 (7 months)

Summary: Created responsive web interfaces and dynamic web applications with React JS and modern CSS frameworks.

Responsibilities: Design and implementation of web pages; improving user experience and front-end optimization; collaborated with UI/UX design teams.

Technologies: HTML, CSS, JavaScript, React JS, React Hooks, Tailwind CSS, Chakra UI

EDUCATION

- **Bachelor of Technology - BTech, Computer Science**, AKS University, Satna (M.P.) - July 2015 - July 2019
- **Higher Secondary**, Madhya Pradesh Board of Secondary Education (MPBSE), June 2003 - July 2015

CERTIFICATION

- Responsive Web Design
- CS50
- Data Science Foundations - Level 2
- Data Science Foundations - Level 1
- Digital Marketing Fundamentals
