

Elton Petro

Full Stack Developer

Front-End Web, Full Stack Web, Back-End Web

Profile

A seasoned Full Stack Developer with over 7 years of experience, notably skilled in PHP and Javascript. The engineer boasts a strong engineering background, having obtained a Bachelor's Degree in Computer Science, and has a proven track record of success in complex software development for German projects such as ChargeCloud. Proficient in both front and backend development, the candidate is well-versed in a broad range of technologies, including JavaScript, Node.js, Vue.js, React.js, and adept in DevOps tools like Docker, Gitlab, and TeamCity. A strong emphasis on backend development and Linux System Administration, combined with comprehensive experience in managing teams and leading software development lifecycles, positions this individual as a standout choice for challenging technical roles.
