

Hiring software engineer as easy as calling a taxi.

Elton Petro

Full Stack Developer

SUMMARY

A seasoned Full Stack Developer with over 7 years of experience, notably skilled in PHP and Javascript. The engineer boasts a strong engineering background, having obtained a Bachelor's Degree in Computer Science, and has a proven track record of success in complex software development for German projects such as ChargeCloud. Proficient in both front and backend development, the candidate is well-versed in a broad range of technologies, including JavaScript, Node.js, Vue.js, React.js, and adept in DevOps tools like Docker, Gitlab, and TeamCity. A strong emphasis on backend development and Linux System Administration, combined with comprehensive experience in managing teams and leading software development lifecycles, positions this individual as a standout choice for challenging technical roles.

SKILLS

Main Technical Skills	PHP (7 yr.), CodeIgniter (7 yr.), Symfony (7 yr.), JavaScript (3 yr.)
Programming Languages	C, Java
UI Frameworks, Libraries, and Browsers	Ajax, Bootstrap 4, CSS, HTML5
JavaScript Frameworks and Libraries	Express
Databases & Management Systems / ORM	Firebase Realtime Database, MariaDB, MS SQL Server Management Studio, MySQL, PostgreSQL, SQL
Cloud Platforms, Services & Computing	AWS
Methodologies, Paradigms and Patterns	Agile
SDK / API and Integrations	API, RESTful API
Collaboration, Task & Issue Tracking	Atlassian Confluence, Jira
Deployment, CI/CD & Administration	CI/CD
Version Control	Git, Github Actions

Platforms	Magento 1, WordPress
QA, Test Automation, Security	Unit Testing
Other Technical Skills	Unreal Engine

WORK EXPERIENCE

Software Engineer (PHP Backend), ChargeCloud

Duration: 16/08/2021 – Current

Summary: Working on backend systems for ChargeCloud, a large German project, involving team support, organization, and engineering solutions for business logic.

Responsibilities: 1. Team organization and support, 2. Software requirements analysis and planning, 3. Software engineering, both conceptual and technical, 4. Web services development, 5. Unit tests implementation

Technologies: PHP (MVC), Laravel, Javascript, JQuery, Docker, Gitlab, TeamCity, Upsource

Team Leader and Fullstack Developer (PHP Backend), Various Projects

Duration: 07/04/2019 – 15/07/2021

Summary: Managed a team of developers at SoftExit, handling server management, software analysis and engineering, building software for both front and backend, including testing and maintenance tasks.

Responsibilities: Team organization and management, VPS servers management, software concept analysis, software development and engineering, database management and modeling, software testing, frontend and backend development, software maintenance, problem-solving

Technologies: PHP, Laravel, CakePHP, CodeIgniter, Symfony, Javascript, Vue.js, React.js, Linux, Docker, Gitlab, TeamCity, Upsource, Node.js, JQuery

Full Stack Developer (PHP Backend), Intern CRM and Other Software Projects

Duration: 01/09/2017 – 30/03/2019

Summary:

- Developed and maintained various software projects including internal CRMs for IDS
- Managed business logic structures for international clients and addressed technical challenges rapidly

Responsibilities: Business logic management, software requests analysis, software development and maintenance, CRM development, database concept and engineering, testing, frontend and backend development, problem-solving

Technologies: PHP, Laravel, CakePHP, CodeIgniter, Symfony, Javascript, Node.js, Vue.js, React.js, JQuery, Linux System Administration

Full Stack Developer (PHP Backend), Various Projects

Duration: 20/02/2015 – 20/08/2017

Summary: Contributed to software development processes in frontend and backend at Division 5, tackling database engineering tasks and resolving bugs or other software issues.

Responsibilities: Software requests analysis, demo/local environment preparation, database modeling and building, software testing, frontend and backend development, software maintenance, bug fixing and problem-solving

Technologies: PHP, Laravel, Javascript, JQuery, MySQL, Linux, RESTful and SOAP Web Services

EDUCATION

- **Computer Science**

Bachelor Degree from Faculty of Natural Sciences in Tirana, Albania.
