

Hiring software engineer as easy as calling a taxi.

Edijs

Fullstack developer

SUMMARY

Experienced full-stack developer with a strong background in scalable architecture design, cloud infrastructure, and modern web and mobile technologies. Proficient in building distributed systems using React Native, React, Node.js, and NestJS. Skilled in managing containerized deployments, service orchestration, and performance optimization across microservice-based environments. Solid understanding of CI/CD pipelines, monitoring, and cloud platforms like DigitalOcean.

SKILLS

Main Technical Skills	NestJS, React Native, React
JavaScript Frameworks	NestJS, React
JavaScript Libraries and Tools	React Native

Full-stack developer with over 5 years of hands-on experience, currently focused on backend and DevOps engineering. Contributed to a secure crypto custody platform by leading backend architecture and services, excluding blockchain logic. Over the last two years, managed backend and DevOps for a matchmaking platform, including CI/CD pipelines, container orchestration, and scalable microservice infrastructure. Skilled in React Native, Node.js, NestJS, MongoDB, Docker, Redis, and cloud environments like DigitalOcean. Strong track record of delivering production-ready systems across fintech, SaaS, and consumer platforms.
