Programming Languages	JavaScript			
UI Frameworks, Libraries, and Browsers	CSS, HTML, Material UI, SCSS			
JavaScript Frameworks	React			
JavaScript Libraries and Tools	Redux, Webpack			
BlockChain and Decentralized Software	Chai			
Version Control	Git			
QA, Test Automation, Security	Mocha			
Third Party Tools / IDEs / SDK / Services	Parcel			
Category	Competence	Level	Last used	Years
Working area				
	Programming	Experienced	2021	3

	Estimating	Good knowledge	2021	2.5
	JavaScript	Experienced	2021	3
	HTML,CSS,SCSS	Experienced	2021	3
	React/Redux	Experienced	2021	3
	Webpack, Parcel	Experienced	2021	3
	Git	Experienced	2021	3
	Mocha/Chai	Good knowledge	2021	2.5
	Material UI	Good knowledge	2021	2.5

Language	Spoken level	Written level
Russian	Native language	Native language
English	Intermediate (B1)	Intermediate (B1)

Project experience:

Project name:	Raise the Grade
Involvement duration:	6 months

Project role:	Front-end Developer
Project team size:	8 developers
Project description:	Web application for registering for food safety course. This application included different admin and client functionality. Admins were able to create classes and register new Clients, and Clients in their turn register their students for the course. After passing exam, students were given certificates and Client could download it from the system.
Project responsibilities	Creating components according to design, creating page layouts and functionality, connecting pages with back-end.
Tools and technologies:	React.js, Redux, Typescript.

Project name:	Baker's management system
Involvement duration:	6 months
Project role:	Front-end Developer
Project team size:	5 developers
Project description:	Kanban like process management system for small private bakery. Allowed employees to track their progress and create request for supplies.
Project responsibilities:	Creating kanban board, working on creating new tasks and comment section to them.
Tools and technologies:	HTML, SCSS, React.js

Project name:	CLIX.CX
Involvement duration:	5 months
Project role:	Front-end Developer
Project team size:	9 developers
Project description:	The CLIX platform is designed to create websites and applications using the Zero Code concept. That is, the client does not need knowledge of programming languages when creating his site. The process of creating a site looks like a constructor, assembling blocks by dragging and dropping individual elements.
Tools and technologies:	React.js, CSS, JavaScript, Redux

Project name:	Health solution
Involvement duration:	8 months
Project role:	Front-end Developer
Project team size:	6 developers
Project description:	Desktop and mobile app for women's health.
Tools and technologies:	HTML, CSS, React.js, Redux

Project name:	Animal service
Involvement duration:	7 months

Project role:	Front-end Developer
Project team size:	4 developers
Project description:	Website for a veterinary clinic. On the website there is an opportunity to make an appointment online.
Tools and technologies:	React.js, Redux, CSS

Project name:	Sea battle
Involvement duration:	4 months
Project role:	Front-end Developer
Project team size:	1 developer
Project description:	Inbrowser game, where you place your ships wisely and destroy enemy ships in duels where strategy and luck are equally important.
Tools and technologies:	HTML, CSS, React.js, Redux
