

Boryslav B.

Senior QA Engineer

SUMMARY

A seasoned QA Engineer with over 6 years of expertise in automating and manually testing web applications and APIs. Holds an impressive command over creating and maintaining automated test cases with Selenium WebDriver (Java, Maven, TestNG), alongside proficiency in a wide array of testing methodologies such as GUI, regression, and functionality testing. Demonstrates robust experience in database testing with SQL, and is well-versed in CI/CD, Agile methodologies, as well as various development tools like IntelliJ IDEA and Postman. With hands-on practice in environments requiring proficiency in Android Studio, XCode, and database management tools, they are ready to tackle complex QA challenges. The candidate's solid technical foundation is complemented by effective communication skills and a disciplined work approach, promising a valuable addition to any engineering team.

TECHNICAL SKILLS

Main Technical Skills	Selenium Webdriver (6 yr.), Java (6 yr.), Apache Maven (6 yr.), TestNG (6 yr.), JUnit
Programming Languages	Java (6 yr.)
Android Libraries and Tools	Android APIs
Mobile Frameworks and Libraries	Crashlytics
JavaScript Frameworks	Node.js
Databases & Management Systems / ORM	Firebase Realtime Database, MongoDB, PostgreSQL
UI Frameworks, Libraries, and Browsers	Ant Design, Chrome Extensions
Amazon Web Services	AWS ECS (Amazon Elastic Container Service)
Google Cloud Platform	Firebase Realtime Database
Methodologies, Paradigms and Patterns	Agile
SDK / API and Integrations	Android APIs, API testing
QA, Test Automation, Security	Apache Maven (6 yr.), API testing, Charles Proxy, Data Validation, Firebug, Genymotion, Jest, JMeter, JUnit, QA Automation, Selenium Webdriver (6 yr.), TestNG (6 yr.), Usability tests, Zeplin

Deployment, CI/CD & Administration	CI/CD
UI/UX/Wireframing	InVision
Platforms	Microsoft Power Platform
Virtualization, Containers and Orchestration	Oracle VM VirtualBox
Third Party Tools / IDEs / SDK / Services	XCode

WORK EXPERIENCE

QA Engineer, Liquidtool

Summary: Supported coolant management with automatic measurements and instant notifications.

Responsibilities: Manual quality assurance, ensuring application compliance with usability guidelines, updating test documentation.

Technologies: Manual QA

QA Engineer, Applaud

Summary: Engagement service aligning company values with employee aspirations.

Responsibilities: Manual quality assurance for web, mobile, and tablet applications.

Technologies: Manual QA

QA Engineer, FreightCenter

Summary: Logistics provider facilitating freight management in the US and Canada with global expansion goals.

Responsibilities: Manual quality assurance, contributing to growth and operational effectiveness.

Technologies: Manual QA

QA Engineer, ZIIP

Summary: Personalized facial and treatment delivery utilizing advanced technology.

Responsibilities: Performing various QA testing for mobile applications on iOS and Android platforms.

Technologies: Manual QA (GUI, Functionality, Regression, Boundary testing of Mobile Application on iOS and Android)

QA Engineer, VOIDS

Summary: Mobile application and system for finding and offering parking spots in Norway.

Responsibilities: Ensuring app quality through manual QA processes and collaborating with various external services.

Technologies: Manual QA, Node.js, React.js, Amazon EC2, MongoDB, Integrations with Facebook, Stripe, and Google Maps

QA Engineer, PawSquad

Summary: Service providing professional vet consultations to pet owners.

Responsibilities: Manual QA to maintain high application standards and foster pets' health.

Technologies: Manual QA

QA Engineer, Friends

Summary: App facilitating event creation and participation for individuals seeking companionship.

Responsibilities: Quality assurance and security for both the mobile app and the web system.

Technologies: Manual QA, iOS and Android Native, Python, React.js, Amazon EC2, PostgreSQL, Firebase

QA Engineer, Hepsiburada

Duration: 2017 – present

Summary: E-commerce platform expansion including website front-end development for the Middle East region.

Responsibilities: Undertook manual QA tasks for the development of the e-commerce platform's web service.

Technologies: Manual QA

EDUCATION

- **Software Testing Course**
Software QA Engineer
2017
- **Portnov Computer School**
Software QA Engineer
2016
- **Uzhhorod National University**
Master of Slovakian philology
2009 - 2014
