AUFA AHDI
Middle Flutter Engineer

SUMMARY

Software engineer with 5+ years of experience specializing in Flutter application development for a variety of industries, including finance, real estate, and governmental disaster management. Demonstrated expertise in both mobile and web development with a solid foundation in computer science, holding a Bachelor's degree in Informatics Engineering. Proficient in key technologies such as Dart (Flutter), React-Native, and Cordova, with a focus on both frontend and backend development. Adept at collaborating in team environments and employing Agile and waterfall methodologies, the engineer has a strong track record in developing applications that address complex requirements. Proficient in state management (BLoC, GetX) and integrating services such as Firebase and RESTful APIs. The candidate brings a combination of technical acumen and practical experience, poised to make a significant impact on future projects.

TECHNICAL SKILLS

Main Technical Skills	Dart (5 yr.), Flutter (5 yr.)
Programming Languages	Dart (5 yr.), Java
Mobile Frameworks and Libraries	Cordova, Flutter (5 yr.)
JavaScript Libraries and Tools	React Native
Databases & Management Systems / ORM	MySQL
Deployment, CI/CD & Administration	CI/CD
Version Control	Git
SDK / API and Integrations	RESTful API
Other Technical Skills	Bloc

WORK EXPERIENCE

Fullstack Developer

Duration: Mar 2023 - Aug 2025

Summary: Developed a web and mobile application for field workers to record oil palm trees growth and irrigation system.

Technologies: Flutter, Dart (GetX), JSP, JavaScript, Java, Cordova

Mobile Developer

Duration: Nov 2022 - Feb 2023

Summary: Designed and implemented a peer-to-peer lending mobile application.

Technologies: Flutter, Dart (GetX)

Web Developer

Duration: Jul 2022 - Oct 2022

Summary: Used Flutter to develop a web platform for MSMEs to display product catalogs and orders.

Technologies: Flutter, Dart (GetX)

Mobile Developer

Duration: Nov 2020 - May 2021

Summary: Developed a mobile application for internal employee task and attendance recording.

Technologies: Flutter

Mobile Developer

Duration: Jan 2020 - Mar 2022

Summary: Created mobile and web applications for booking and paying for surveyor services.

Technologies: Flutter, Dart (BLOC)

Mobile Developer

Duration: Feb 2019 - Mar 2020

Summary: Developed a booking application for shuttles in Lombok.

Technologies: Flutter

Mobile Developer

Duration: Oct 2019 - Jan 2020

Summary: Developed a mobile application for Android as per client request.

Technologies: Flutter

Mobile Developer

Duration: Apr 2019 - Jul 2019

Summary: Developed a mobile application to record children's growth for a non-government organization.

Technologies: Flutter

Fullstack Developer

Duration: Apr 2019 - Jun 2019

Summary: Developed a mobile application with real-time data to monitor natural disaster-prone areas.

Technologies: React-Native, Node.js

Mobile Developer

Duration: Apr 2018 - Jun 2019

Summary: Developed a mobile application for mapping evacuation locations after the Lombok earthquake.

Technologies: Android, Kotlin

EDUCATION

- **Bachelor of Informatics Engineering**
- Bumigora University, Mataram, Lombok (January 2014 - December 2019)
