

Aderemi Okeowo

Senior Senior Frontend Engineer

SUMMARY

Software engineer with extensive experience in front-end and back-end development, proficient in Core JavaScript and DOM API as well as Angular, React, and Vue. Valuable contributor to cross-functional teams with a track record of optimizing performance and streamlining SDLC through Agile methodologies. Recognized for delivering high-quality, user-friendly software solutions that exceed client expectations and contribute to business growth. Holds a First Class Honours BSc in Information Technology and Business Information System from MiddleSex University and an Advanced Diploma in Software Engineering from Aptech, distinguished by technical rigour and a practical approach to problem-solving. Employs a combination of in-depth technical expertise in the JavaScript ecosystem, software development best practices, and continuous professional development to drive impactful innovations.

TECHNICAL SKILLS

Main Technical Skills	JavaScript (5 yr.), TypeScript (2 yr.), Angular (2 yr.), React (2 yr.), Vue-bootstrap (2 yr.)
Programming Languages	Haskell, JavaScript (5 yr.), TypeScript (2 yr.)
JavaScript Frameworks	Angular (2 yr.), Lodash, React (2 yr.), Svelte
Mobile Frameworks and Libraries	Cordova
UI Frameworks, Libraries, and Browsers	DOM
Java Frameworks	Spring Boot
Methodologies, Paradigms and Patterns	Agile, FDD, microservices architecture
Third Party Tools / IDEs / SDK / Services	Office 365
QA, Test Automation, Security	Selenium Webdriver, Usability tests

WORK EXPERIENCE

Senior Consultant, Various Consulting Projects

Duration: 08/2018 - Present

Summary:

- Spearheaded the delivery of consulting services, integrated with teams, and drove development aligned with client goals
- Played a critical role in talent acquisition by interviewing entry-level developers

Responsibilities: Consulting service delivery, client satisfaction, team integration, innovative solution development, talent acquisition process participation.

Technologies: Core JavaScript, DOM API, Angular, React, Vue, Agile methodologies

Chrome Extension Engineer (Part-time), Chrome Extension Development

Duration: 01/2023 - 07/2023

Summary: Conceptualized and developed new features for Chrome Extension, maintained quality standards, and optimized existing extension performance.

Responsibilities: Developing new features, code reviewing, technology research, cross-functional collaboration, performance optimization.

Technologies: Chrome API/Extension, JavaScript

Software Engineer, UI Redesign for AppBuilder & AppManager

Duration: 09/2020 - 09/2023

Summary: Led UI redesign for AppBuilder & AppManager, creating reusable components and enhancing user experience for OLI Systems' software portal application.

Responsibilities: Redesigning user interface, creating reusable components, gathering requirements, collaborating with teams, ensuring quality and efficiency.

Technologies: UI/UX, JavaScript, Agile methodologies

Software Developer, Reusable Component Development and Styling Guide

Duration: 08/2018 - 06/2020

Summary: Trained clients, developed reusable components with Angular, created a styling guide, and resolved bugs to enhance user experience and functionality.

Responsibilities: Client training, development of reusable components, bug identification and resolution, style guide creation, cross-functional team collaboration.

Technologies: Angular, JavaScript, CSS

Software Engineer, Mobile Banking App and Microservices API for IFIS

Duration: 10/2014 - 09/2018

Summary: Developed a mobile banking app using Cordova and Microservices API for IFIS, improving bank operations and agent interactions.

Responsibilities: Mobile app development, microservices API development, project execution, functional testing, cross-functional team collaboration.

Technologies: Cordova, Spring Boot, Microsoft T-SQL, Selenium, WebDriver

EDUCATION

- **Bachelor of Science (BSc) in Information Technology and Business Information System**
First Class Honours
2013
- **Advanced Diploma in Software Engineering**
Distinction
2012
