

# Obed Sfiso Nkosi

## Computer Applications Technology Professional

Project Manager, Sales and Marketing Copywriter

### Profile

The engineer possesses a robust foundation in Computer Applications Technology with a proficiency in key software including Microsoft Office, Photoshop, and programming languages such as Python. A graduate from Nigel High School with a National Senior Certificate, the engineer has shown a proficiency for technical problem-solving and a results-oriented approach to tasks. Notable achievements include the running of successful Facebook and Google Ads campaigns which highlight expertise in leveraging digital marketing tools for targeted outreach. Despite a lack of detailed project experience or advanced qualifications, the engineer demonstrates potential as a tech-savvy professional with practical skills relevant to entry-level positions in tech industries.
